Prostaglandin $F_{2\alpha}$-induced estrus in ewes exhibiting estrous cycles of different duration
H. Cárdenas, T.M. Wiley and W.F. Pope 123
Collection and evaluation of semen from captive howler monkeys (*Alouatta caraya*)
R.R. Valle, M.A.B.V. Guimarães, J.A.P.C. Muniz, R.C. Barnabe and W.G. Vale 131
Semen characteristics, cryopreservation, and successful artificial insemination in the Blue rock pigeon (*Columba livia*)
S.D. Sontakke, G. Umapathy, V. Sivaram, S.D. Kholkute and S. Shivaji 139
Development of in vivo derived diploid and tetraploid pig embryos in a modified medium NCSU 37
R. Procházka, P. Vodička, D. Zudová, R. Rybář and J. Motlík 155
Improvement in spermatogenic function after subcutaneous implantation of a capsule containing an aromatase inhibitor in four oligozoospermic dogs and one azoospermic dog with high plasma estradiol-17β concentrations
E. Kawakami, T. Hirano, T. Hori and T. Tsutsui 165
Initial studies on sperm cryopreservation of a live-bearing fish, the green swordtail *Xiphophorus helleri*
C. Huang, Q. Dong, R.B. Walter and T.R. Tiersch 179
Rate of abnormalities in lambs from in vitro produced embryos transferred on Day 2 compared with Day 6 postfertilization
S.E. Walmsley, B.C. Buckrell, C. Buschbeck, N. Rumph and J.W. Pollard 195
Effects of PDC-109 on bovine sperm functional activity in presence or absence of heparin
M. Fiol de Cuneo, L.M. Vincenti, A.C. Martini, A.A. Ponce and R.D. Ruiz 207
Luteal function and conception in lactating cows and some factors influencing luteal function after first insemination
A. Hommeida, T. Nakao and H. Kubota 217
A simple ultrasound test to predict the superstimulatory response in cattle
J. Singh, M. Domínguez, R. Jaiswal and G.P. Adams 227
Regulatory roles of ubiquitin–proteasome pathway in pig oocyte meiotic maturation and fertilization
Q.Y. Sun, D. Fuchimoto and T. Nagai 245
Ultrasonographic evaluation of uterine involution and postpartum follicular dynamics in French Jennies (*Equus asinus*)
D. Dadarwal, S.N. Tandon, G.N. Purohit and P.K. Pareek 257
Estradiol benzoate given 0 or 24 h after the end of a progestagen treatment in postpartum suckled beef cows
P.J. Ross, J.F. Aller, S.S. Callejas, H. Butler and R.H. Alberio 265
Seasonal variation in testicular volume and sexual behavior of Chios and Serres rams
M. Avdi, G. Banos, K. Stefos and P. Chemineau 275
Germ cell apoptosis in the testes of normal stallions
N.L. Heninger, C. Staub, T.L. Blanchard, L. Johnson, D.D. Varner and D.W. Forrest . . 283
Effect of undegradable protein supply on testicular size, spermiogram parameters and sexual behavior of mature Assaf rams
M. Fernández, F.J. Giráldez, P. Frutos, P. Lavín and A.R. Mantecón 299
Exogenous γ-glutamyl cycle compounds supplemented to in vitro maturation medium influence in vitro fertilization, culture, and viability parameters of porcine oocytes and embryos
B.D. Whitaker and J.W. Knight 311
Effects of levamisole on hyaluronidase activity and sperm characteristics in rams
T. Bozkurt, S. Tanyıldızı and G. Türk 323

Parturition in gilts: duration of farrowing, birth intervals and placenta expulsion in relation to maternal, piglet and placental traits
B.T.T.M. van Rens and T. van der Lende 331
Vitrification of porcine embryos at various developmental stages using different ultra-rapid cooling procedures
C. Cuello, M. Antonio Gil, I. Parrilla, J. Tornel, J.M. Vázquez, J. Roca, F. Berthelot, F. Martinat-Botté and E.A. Martínez 353
The use of estradiol and/or GnRH in a two-dose PGF protocol for breeding management of beef heifers
M.F. Martínez, J.P. Kastelic and R.J. Mapletoft 363

Errata

Erratum to "Differential requirement for pulsatile LH during the follicular phase and exposure to the preovulatory LH surge for oocyte fertilization and embryo development in cattle". [Theriogenology 58 (2002) 1651–1662] .....
B.R. Lindsey, L.J. Maclellan, T.R. Whyte, J.E. Kinder and M.J. D'Occhio 373
Erratum to "A study of two protocols combining aglepristone and cloprostenol to treat open cervix pyometra in the bitch". [Theriogenology 60 (2003) 901–908] .....
C. Gobello, G. Castex, L. Klima, R. Rodríguez and Y. Corrada 375

Announcements 377

Guide for Authors 379

VOLUME 62 ISSUES 3–4 **AUGUST 2004**

Infectivity of bovine viral diarrhea virus associated with in vivo-derived bovine embryos
J.G. Waldrop, D.A. Stringfellow, P.K. Galik, K.P. Riddell, M. Gatz Riddell, M. Daniel Givens and R.L. Carson 387
Comparison between the toluidine blue stain and the Feulgen reaction for evaluation of rabbit sperm chromatin condensation and their relationship with sperm morpho logy
M.E. Beletti and M.L.S. Mello 398
Cell-specific expression of estrogen-responsive genes in the uteri of cyclic, early pregnant and ovariectomized ewes
N.H. Ing and Y. Zhang 403
Effect of post-thaw incubation on sperm kinematics and acrosomal integrity of ram spermatozoa cryopreserved in medium-sized French straws
S. Bag, A. Joshi, S.M.K. Naqvi and J.P. Mittal 415
A retrospective study on the preserving capacity of a commercial boar semen extender
S.S. Anil, A. Larriestra, J. Deen, R.B. Morrison and L. Minion 425
Comparison on in vitro fertilized bovine embryos cultured in KSOM or SOF and cryopreserved by slow freezing or vitrification
T.L. Nedambale, A. Dinnyés, W. Groen, J.R. Dobrinsky, X.C. Tian and X. Yang 437
Hair whorl patterns on the bovine forehead may be related to breeding soundness measures
M.G. Meola, T. Grandin, P. Burns and M. Deesing 450
Transfer of European mink (*Mustela lutreola*) embryos into hybrid recipients
S. Amstislavsky, J. Aalto, M. Järvinen, H. Lindeberg, M. Valtonen, G. Zudova and Y. Ternovskaya 458

Effect of ovary holding temperature and time on equine granulosa cell apoptosis, oocyte chromatin configuration and cumulus morphology
H.G. Pedersen, E.D. Watson and E.E. Telfer 468
Comparison of different vitrification protocols on viability after transfer of ovine blastocysts in vitro produced and in vivo derived
M. Dattena, C. Accardo, S. Pilichi, V. Isachenko, L. Mara, B. Chessa and P. Cappai ... 481
Effects of aglépristone, a progesterone receptor antagonist, administered during the early luteal phase in non-pregnant bitches
S. Galac, H.S. Kooistra, S.J. Dieleman, V. Cestnik and A.C. Okkens 494
High resolution DNA flow cytometry of boar sperm cells in identification of boars carrying cytogenetic aberrations
J. Larsen, K. Christensen, J.K. Larsen, P.Ø. Jensen, I. Gustavsson and I.J. Christensen . 501
Preimplantational embryo development and incidence of blastomere apoptosis in bovine somatic cell nuclear transfer embryos reconstructed with long-term cultured donor cells
G. Jang, E.-S. Park, J.-K. Cho, M.M.U. Bhuiyan, B.-C. Lee, S.-K. Kang and W.-S. Hwang 512
Reproduction results and offspring performance after non-surgical embryo transfer in pigs
D.W.B. Ducro-Steverink, C.G.W. Peters, C.C. Maters, W. Hazeleger and J.W.M. Merks 522
Isolation and characterization of goat ovarian aromatase cDNA: assessment of the activity using an intact cell system and placental expression
R.J. Bobes, C. Miranda, M. Pérez-Martínez, V. Luu-The and M.C. Romano 532
Effect of short periods of sperm–oocyte coincubation during in vitro fertilization on embryo development in pigs
M.A. Gil, M. Ruiz, J.M. Vazquez, J. Roca, B.N. Day and E.A. Martinez 544
Effect of plasmin on movement characteristics of ejaculated bull spermatozoa
I.A. Taitzoglou, D.A. Chapman, I.A. Zervos and G.J. Killian 553
Escherichia coli infections in newborn puppies—clinical and epidemiological investigations
A. Münnich and A. Lübke-Becker 562
Effect of donor stimulation, frozen semen and heparin treatment on the efficiency of in vitro embryo production in goats
L. Kątska-Książkiewicz, B. Ryńska, B. Gajda and Z. Smorąg 576
Liquid storage of flow cytometrically sorted ram spermatozoa
F.K. Hollinshead, J.K. O'Brien, L. Gillan, M. Meyers, W.M.C. Maxwell and G. Evans 587
Neospora caninum infection does not affect early pregnancy in dairy cattle
F. López-Gatius, M. Pabón and S. Almería 606
Serum estradiol-17β, progesterone and respective uterine cytosol receptor concentrations in bitches with spontaneous pyometra
H.N. Ververidis, C.M. Boscos, A. Stefanakis, P. Saratsis, A.I. Stamou and E. Krambovitis 614
Effect of fluorogestone acetate on embryo recovery and quality in eCG-superovulated goats with premature luteal regression
M.C. Espinosa-Márquez, J. Valenci, L. Zarco, F.J. Escobar-Medina, F. Colina-Flores and C.F. Arechiga-Flores 624
Proliferation patterns in the canine endometrium during the estrous cycle
S. Van Cruchten, W. Van den Broeck, M. D'haeseleer and P. Simoens 631
Abdominal pregnancies in farm rabbits
P. Segura Gil, B. Peris Palau, J. Martínez Martínez, J. Ortega Porcel and J.M. Corpa Arenas 642
Artificial insemination following observational versus electronic methods of estrus detection in red deer hinds (*Cervus elephus*)
S.D. Bowers, C.G. Brown, T.A. Strauch, B.S. Gandy, D.A. Neuendorff, R.D. Randel and S.T. Willard 652

Pregnancy rates and metabolic profiles in cattle treated with propylene glycol prior to embryo transfer
C.O. Hidalgo, E. Gómez, L. Prieto, P. Duque, F. Goyache, L. Fernández, I. Fernández, N. Facal and C. Díez 664
Reproductive performance of lactating dairy cows treated with cloprostenol at the time of insemination
F. López-Gatius, J.L. Yániz, P. Santolaria, K. Murugavel, R. Guijarro, E. Calvo and M. López-Béjar 677
Decrease in glutathione content in boar sperm after cryopreservation. Effect of the addition of reduced glutathione to the freezing and thawing extenders .....
J. Gadea, E. Sellés, M.A. Marco, P. Coy, C. Matás, R. Romar and S. Ruiz 690
Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?
T. Hallap, M. Håård, Ü. Jaakma, B. Larsson and H. Rodriguez-Martinez 702
Examination of a modified cell cycle synchronization method and bovine nuclear transfer using synchronized early G1 phase fibroblast cells
M. Urakawa, A. Ideta, T. Sawada and Y. Aoyagi 714
Comparison of two estrus synchronization and resynchronization treatments in lactating dairy cows
J. Cavalieri, G. Hepworth and L.A. Fitzpatrick 729
Evaluation of post-thaw Asian elephant (*Elephas maximus*) spermatozoa using flow cytometry: the effects of extender and cryoprotectant
N. Thongtip, J. Saikhu, M. Damyan, S. Mahasawangkul, P. Suthunmapinat, M. Yinde, A. Kongsila, T. Angkawanish, S. Jansittiwate, W. Wongkalasin, W. Wajjwalku, Y. Kitiyanan, K. Pavasuthipaisit and A. Pinyopummin 748
Effect of L-carnitine administration on the seminal characteristics of oligoasthenospermic stallions
G. Stradaioli, L. Sylla, R. Zelli, P. Chiodi and M. Monaci 761

Announcements 778

VOLUME 62 ISSUE 5 **1 SEPTEMBER 2004**

A paucity of structural integrity in cloned porcine blastocysts produced in vitro
D.-B. Koo, Y.-K. Kang, J.S. Park, J.-K. Park, W.-K. Chang, K.-K. Lee and Y.-M. Han . 779
Comparative study of the reproductive characteristics of XY male and hormonally sex-reversed XX male Eurasian perch, *Perca fluviatilis*
C. Rougeot, F. Nicayenzi, S.N.M. Mandiki, E. Rurangwa, P. Kestemont and C. Mélard 790
Seminal plasma proteins prolong the viability of rainbow trout (*Oncorynchus mykiss*) spermatozoa
F. Lahnsteiner, N. Mansour and B. Berger 801
Effects of the supplementation of trehalose extender containing egg yolk with sodium dodecyl sulfate on the freezability of goat spermatozoa
E.M.-E. Aboagla and T. Terada 809
Effects of heparin and sperm concentration on cleavage and blastocyst development rates of bovine oocytes inseminated with flow cytometrically-sorted sperm
K.H. Lu and G.E. Seidel 819

Effects of a new injectable short-term release deslorelin in foal-heat mares
K.L. Stich, K.M. Wendt, T.L. Blanchard and S.P. Brinsko 831
A sheer pharmacologic approach to compare the contractile effects of $PGF_{2\alpha}$, DL-cloprostenol and D-cloprostenol on isolated uterine, tracheal, ileal and arterial smooth muscle preparations
C. Beretta and M. Cavalli 837
Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress
G. de Medeiros Bastos, R.H. Brenner, F.W. Willke, J.P. Neves, J.F.C. de Oliveira, J.F.M. Bragança, S.A. Machado, P.M. Porciúncula and P.B.D. Gonçalves 847
Effect of the timing of the first cleavage on the developmental potential of nuclear-transferred mouse oocytes receiving embryonic stem cells
T. Kobayashi, Y. Kato and Y. Tsunoda 854
Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves
E.T. Bagu, S. Madgwick, R. Duggavathi, P.M. Bartlewski, D.M.W. Barrett, S. Huchkowsky, S.J. Cook and N.C. Rawlings 861
Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation
C. Dubé, M. Beaulieu, C. Reyes-Moreno, C. Guillemette and J.L. Bailey 874
Rapid sexing of bovine preimplantation embryos using loop-mediated isothermal amplification
H. Hirayama, S. Kageyama, S. Moriyasu, K. Sawai, S. Onoe, Y. Takahashi, S. Katagiri, K. Toen, K. Watanabe, T. Notomi, H. Yamashina, S. Matsuzaki and A. Minamihashi ... 887
Ability to activate oocytes and chromosome integrity of mouse spermatozoa preserved in EGTA Tris–HCl buffered solution supplemented with antioxidants
H. Kusakabe and Y. Kamiguchi 897
A comparison of a mechanical sector and a linear array transducer for ultrasound-guided transvaginal oocyte retrieval (OPU) in the cow
P.E.J. Bols, J.L.M.R. Leroy, T. Vanholder and A. Van Soom 906
Effects of different artificial insemination techniques and sperm doses on fertility of normal mares and mares with abnormal reproductive history
H. Sieme, A. Bonk, H. Hamann, E. Klug and T. Katila 915
In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*
J. Bassols, E. Kádár, M. Dolors Briz, E. Pinart, S. Sancho, N. Garcia-Gil, E. Badia, A. Pruneda, E. Bussalleu, M Yeste and S. Bonet 929
Ovarian follicle vascularization in fasted pig
B. Barbara, M. Alessandra, B. Paolo, R. Valentina, T. Maura, B. Nicola, L. Pia and M. Mauro 943
Assessment of in vitro sperm characteristics after flow cytometric sorting of frozen-thawed bull spermatozoa
F.K. Hollinshead, J.K. O'Brien, W.M.C. Maxwell and G. Evans 958

Erratum

Erratum to "Effects of exposure of epididymal boar spermatozoa to seminal plasma on the binding of zona pellucida proteins during in vitro capacitation" [Therio. 61 (2004) 215–26]
W. Harkema, B. Colenbrander, B. Engel and H. Woelders 969

Announcements 970

VOLUME 62 ISSUE 6 **15 SEPTEMBER 2004**

Sperm cryopreservation of a live-bearing fish, the platyfish *Xiphophorus couchianus*
C. Huang, Q. Dong and T.R. Tiersch 971
Transcervical artificial insemination in sheep: effects of a new transcervical artificial insemination instrument and traversing the cervix on pregnancy and lambing rates
M.C. Wulster-Radcliffe, S. Wang and G.S. Lewis 990
Changes in ovarian, follicular, and oocyte morphology immediately after the onset of puberty are not accompanied by an increase in oocyte developmental competence in the pig
M.A. Bagg, R. Vassena, E. Papasso-Brambilla, C.G. Grupen, D.T. Armstrong and F. Gandolfi 1003
Prenatal toxicity of cyanide in goats—a model for teratological studies in ruminants
B. Soto-Blanco and S.L. Górniak 1012
Distribution of spermatozoa in the female reproductive tract of the domestic cat in relation to ovulation induced by natural mating
K. Chatdarong, C. Lohachit and C. Linde-Forsberg 1027
Follicular dynamics and concentrations of steroids and gonadotropins in lactating cows and nulliparous heifers
D. Wolfenson, G. Inbar, Z. Roth, M. Kaim, A. Bloch and R. Braw-Tal 1042
Evaluation of alternative cryoprotectants for preserving stallion spermatozoa
E.L. Squires, S.L. Keith and J.K. Graham 1056
Effects of granulosa coculture on in-vitro oocyte meiotic maturation within a putatively less competent murine model
B.C. Heng, G.Q. Tong and S.C. Ng 1066
Effect of prematuration, meiosis activating sterol and enriched maturation medium on the nuclear maturation and competence to development of calf oocytes
I. Donnay, I. Faerge, C. Grøndahl, B. Verhaeghe, H. Sayoud, N. Ponderato, C. Galli and G. Lazzari 1093
A comparison of diagnosis of pregnancy in the goat via transrectal ultrasound scanning, progesterone, and pregnancy-associated glycoprotein assays
F. González, F. Cabrera, M. Batista, N. Rodríguez, D. Álamo, J. Sulon, J.-F. Beckers and A. Gracia 1108
GnRH immunocontraception of male cats
J.K. Levy, L.A. Miller, P. Cynda Crawford, J.W. Ritchey, M.K. Ross and K.A. Fagerstone 1116
Metabolic changes in follicular fluid of the dominant follicle in high-yielding dairy cows early post partum
J.L.M.R. Leroy, T. Vanholder, J.R. Delanghe, G. Opsomer, A. Van Soom, P.E.J. Bols, J. Dewulf and A. de Kruif 1131
In vitro development following one-step dilution of OPS-vitrified porcine blastocysts
C. Cuello, M. Antonia Gil, I. Parrilla, J. Tornel, J.M. Vázquez, J. Roca, F. Berthelot, F. Martinat-Botté and E.A. Martínez 1144
Methanol as a cryoprotectant for equine embryos
L.D. Bass, D.J. Denniston, L.J. Maclellan, P.M. McCue, G.E. Seidel Jr. and E.L. Squires 1153
Effects of egg yolk during the freezing step of cryopreservation on the viability of goat spermatozoa
E.M.-E. Aboagla and T. Terada 1160

Announcements 1173

VOLUME 62 ISSUE 7 **1 OCTOBER 2004**

Production of dromedary (*Camelus dromedarius*) embryos by IVM and IVF and co-culture with oviductal or granulosa cells
H. Khatir, A. Anouassi and A. Tibary 1175
Effects of oxygen concentration and antioxidants on the in vitro developmental ability, production of reactive oxygen species (ROS), and DNA fragmentation in porcine embryos
Y. Kitagawa, K. Suzuki, A. Yoneda and T. Watanabe 1186
Sexual development in early- and late-maturing *Bos indicus* and *Bos indicus* × *Bos taurus* crossbred bulls in Brazil
L.F.C. Brito, A.E.D.F. Silva, M.M. Unanian, M.A.N. Dode, R.T. Barbosa and J.P. Kastelic 1198
Quality control in boar semen production by use of the FACSCount AF system
P. Christensen, D.B. Knudsen, H. Wachmann and M.T. Madsen 1218
Prevalence of *Neospora caninum* infection in dairy cows and its consequences for reproductive management
N. Canada, J. Carvalheira, C.S. Meireles, J.M. Correia da Costa and A. Rocha 1229
Lambing rates and litter sizes following intrauterine or cervical insemination of frozen/thawed semen with or without oxytocin administration
M.E. King, W.A.C. McKelvey, W.S. Dingwall, K.P. Matthews, F.E. Gebbie, M.J.A. Mylne, E. Stewart and J.J. Robinson 1236
Prognostic value of spermatological parameters as predictors of in vitro fertility of frozen-thawed bull semen
C.M. Tartaglione and M.N. Ritta 1245
Rapid growth and elongation of bovine blastocysts in vitro in a three-dimensional gel system
G. Vajta, N.I. Alexopoulos and H. Callesen 1253
Effect of the interval between estrus onset and artificial insemination on sex ratio and fertility in cattle: a field study
F. Martinez, M. Kaabi, F. Martinez-Pastor, M. Alvarez, E. Anel, J.C. Boixo, P. de Paz and L. Anel 1264
Semen quality of postpubertal boars during increasing and decreasing natural photoperiods
S. Sancho, E. Pinart, M. Briz, N. Garcia-Gil, E. Badia, J. Bassols, E. Kádár, A. Pruneda, E. Bussalleu, M. Yeste, M.G. Coll and S. Bonet 1271
The effect of different doses of Gonadorelin on ovarian follicle dynamics in river buffalo (*Bubalus bubalis*)
A. Rastegarnia, A. Niasari-Naslaji, P. Hovareshti, F. Sarhaddi and M. Safaei 1283
Automated sperm morphometry and morphology analysis of canine semen by the Hamilton-Thorne analyser
T. Rijsselaere, A. Van Soom, G. Hoflack, D. Maes and A. de Kruif 1292
Experimentally induced orchitis associated with *Arcanobacterium pyogenes*: clinical, ultrasonographic, seminological and pathological features
P.G. Gouletsou, G.C. Fthenakis, P.J. Cripps, N. Papaioannou, T. Lainas, D. Psalla and G.S. Amiridis 1307
Occasional detection of *Neospora caninum* DNA in frozen extended semen from naturally infected bulls
A. Caetano-da-Silva, I. Ferre, E. Collantes-Fernández, V. Navarro, G. Aduriz, C. Ugarte-Garagalza and L.M. Ortega-Mora 1329

Influence of repeated rectal ultrasound examinations on hormone profiles and behaviour around oestrus and ovulation in dairy cattle
J.B. Roelofs, E.G. Bouwman, S.J. Dieleman, F.J.C.M. Van Eerdenburg, L.M.T.E. Kaal-Lansbergen, N.M. Soede and B. Kemp 1337
Blood cells in rainbow trout *Oncorhynchus mykiss* milt: relation to milt collection method and sampling period
A. Ciereszko, T. Własow, S. Dobosz, K. Goryczko and J. Glogowski 1353

Announcements 1365

VOLUME 62 ISSUE 8 **NOVEMBER 2004**

Immunization in heifers with dual vaccines containing *Tritrichomonas foetus* and *Campylobacter fetus* antigens using systemic and mucosal routes
E.R. Cobo, C. Morsella, D. Cano, A. Cipolla and C.M. Campero 1367
Isolation of *E. coli* from foam and effects of fluoroquinolones on *E. coli* and foam production in male Japanese quail
J. Mohan, K.V.H. Sastry, J.S. Tyagi and D.K. Singh 1383
Changes in plasma gonadotropin concentrations and urethral closure pressure in the bitch during the 12 months following ovariectomy
I.M. Reichler, E. Pfeiffer, C.A. Piché, W. Jöchle, M. Roos, M. Hubler and S. Arnold .. 1391
Effect of protein supplementation in potassium simplex optimization medium on preimplantation development of bovine non-transgenic and transgenic cloned embryos
M.M.U. Bhuiyan, J.-k. Cho, G. Jang, E.-s. Park, S.-k. Kang, B.-c. Lee and W.-s. Hwang 1403
Effect of time of ovulation on fertilization after intrabursal transfer of spermatozoa (ITS): improvement of a new method for artificial insemination in mice
M. Sato, M. Tanigawa and T. Watanabe 1417
Correlation between fetal age and ultrasonographic measurements during the second half of pregnancy in domestic cats (*Felis catus*)
D. Zambelli, C. Castagnetti, S. Belluzzi and C. Paladini 1430
Effects of an experimental *Trypanosoma congolense* infection on the reproductive performance of West African Dwarf goats
D. Faye, J. Sulon, Y. Kane, J.-F. Beckers, S. Leak, Y. Kaboret, N.M. de Sous, B. Losson and S. Geerts 1438
Sexing using single blastomere derived from IVF bovine embryos by fluorescence in situ hybridization (FISH)
J.H. Lee, J.H. Park, S.-H. Lee, C.S. Park and D.I. Jin 1452
Genetic parameters of multiple ovulation traits in Nellore females
M.G.C.D. Peixoto, C.S. Pereira, J.A.G. Bergmann, V.M. Penna and C.G. Fonseca 1459
Production of a healthy calf by somatic cell nuclear transfer without micromanipulators and carbon dioxide incubators using the Handmade Cloning (HMC) and the Submarine Incubation System (SIS)
G. Vajta, P. Bartels, J. Joubert, M. de la Rey, R. Treadwell and H. Callesen 1465
Effects of amino acids on maturation, fertilization and embryo development of pig follicular oocytes in two IVM media
J.Y. Hong, H.Y. Yong, B.C. Lee, W.S. Hwang, J.M. Lim and E.S. Lee 1473
Follicle size-dependent effects of sow follicular fluid on in vitro cumulus expansion, nuclear maturation and blastocyst formation of sow cumulus oocytes complexes
O. Algriany, M. Bevers, E. Schoevers, B. Colenbrander and S. Dieleman 1483

Influence of glucose and fructose in the extender during long-term storage of chilled canine semen
S. Ponglowhapan, B. Essén-Gustavsson and C. Linde Forsberg 1498
Estrus synchronization in beef heifers with progestin-based protocols. I. Differences in response based on pubertal status at the initiation of treatment.....
S.L. Wood-Follis, F.N. Kojima, M.C. Lucy, M.F. Smith and D.J. Patterson..... 1518
Progesterone supplementation during the early fetal period reduces pregnancy loss in high-yielding dairy cattle
F. López-Gatius, P. Santolaria, J.L. Yániz and R.H.F. Hunter 1529
Cloning of Taiwan water buffalo male-specific DNA sequence for sexing
Y.-M. Horng, Y.-T. Chen, C.-P. Wu, Y.-S. Jea and M.-C. Huang..... 1536
Birth of piglets by in vitro fertilization of zona-free porcine oocytes
G.-M. Wu, L. Lai, J. Mao, T.C. McCauley, J.N. Caamaño, T. Cantley, A. Rieke, C.N. Murphy, R.S. Prather, B.A. Didion and B.N. Day 1544
Oral intake of shark liver oil modifies lipid composition and improves motility and velocity of boar sperm
R. Mitre, C. Cheminade, P. Allaume, P. Legrand and A.B. Legrand 1557

Announcements..... 1567

VOLUME 62 ISSUE 9 **DECEMBER 2004**

Sexing of murine and bovine embryos by developmental arrest induced by high-titer H-Y antisera
M.F.P.D.-T. Ramalho, J.M. Garcia, C.R. Esper, R. Vantini, B.C.A. Alves, I.L. Almeida Junior, V.F.M. Hossepian de Lima and C.A. Moreira-Filho 1569
Comparison of four synchronization protocols for fixed-time bovine embryo transfer in *Bos indicus* × *Bos taurus* recipients
L.F. Nasser, E.L. Reis, M.A. Oliveira, G.A. Bó and P.S. Baruselli 1577
Effects of oxygen tension on the development and quality of porcine in vitro fertilized embryos
N.W.K. Karja, P. Wongsrikeao, M. Murakami, B. Agung, M. Fahrudin, T. Nagai and T. Otoi 1585
Origin of bovine follicular fluid and its effect during in vitro maturation on the developmental competence of bovine oocytes
A. Ali, K. Coenen, D. Bousquet and M.-A. Sirard..... 1596
A Bayesian approach to prediction of stallion daily sperm output
J.A. Thompson, C.C. Love, K.L. Stich, S.P. Brinsko, T.L. Blanchard and D.D. Varner . 1607
Increasing feed intake in late gestation does not affect plasma progesterone concentration in the sow
H.M. Miller, G.R. Foxcroft and F.X. Aherne..... 1618
Chemical activation of buffalo (*Bubalus bubalis*) oocytes by different methods: effects of aging on post-parthenogenetic development
B.-Gasparrini, L. Boccia, A. De Rosa, R. Di Palo, G. Campanile and L. Zicarelli..... 1627
Effects of in vitro storage time and semen-extender on membrane quality of boar sperm assessed by flow cytometry
K.E. Waterhouse, P.M. De Angelis, T. Haugan, H. Paulenz, P.O. Hofmo and W. Farstad 1638

Recovery, morphological quality, and in vitro maturation of follicular oocytes from bitches with pyometra
M. Hishinuma, S. Minami, Y. Okamoto, K. Miyatake and J. Sekine 1652
In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection
R. Kishida, E.S. Lee and Y. Fukui 1663
Fecal steroid analysis for monitoring reproduction in the sun bear (*Helarctos malayanus*)
F. Schwarzenberger, G. Fredriksson, K. Schaller and L. Kolter 1677

Erratum

Erratum to "Farrowing rates and litter size following transfer of vitrified porcine embryos into a commercial swine herd". [Therio. 61 (2004) 1533–1543]
R.D.A. Cameron, L.F.S. Beebe, A.W. Blackshaw and H.L. Keates 1693

ELSEVIER

Theriogenology

Theriogenology 62 (2004) 1719–1747

www.elsevier.com/locate/theriogenology

Subject Index, Volume 62

Abdominal pregnancy

Abdominal pregnancies in farm rabbits, 62 (2004) 642

Abortion

Neospora caninum infection does not affect early pregnancy in dairy cattle, 62 (2004) 606

Prevalence of *Neospora caninum* infection in dairy cows and its consequences for reproductive management, 62 (2004) 1229

Acrosomal integrity

Effect of post-thaw incubation on sperm kinematics and acrosomal integrity of ram spermatozoa cryopreserved in medium-sized French straws, 62 (2004) 415

Acrosome

Effects of egg yolk during the freezing step of cryopreservation on the viability of goat spermatozoa, 62 (2004) 1160

AI

The use of estradiol and/or GnRH in a two-dose PGF protocol for breeding management of beef heifers, 62 (2004) 363

Alkylglycerols

Oral intake of shark liver oil modifies lipid composition and improves motility and velocity of boar sperm, 62 (2004) 1557

Alouatta

Collection and evaluation of semen from captive howler monkeys (*Alouatta caraya*), 62 (2004) 131

Amino acids

Effects of amino acids on maturation, fertilization and embryo development of pig follicular oocytes in two IVM media, 62 (2004) 1473

Anestrous

Estradiol benzoate given 0 or 24 h after the end of a progestagen treatment in postpartum suckled beef cows, 62 (2004) 265

Anestrus

Comparison of two estrus synchronization and resynchronization treatments in lactating dairy cows, 62 (2004) 729

Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress, 62 (2004) 847

Angiotensin II

Effects of PDC-109 on bovine sperm functional activity in presence or absence of heparin, 62 (2004) 207

Antioxidants

Ability to activate oocytes and chromosome integrity of mouse spermatozoa preserved in EGTA Tris–HCl buffered solution supplemented with antioxidants, 62 (2004) 897

Anti-protease

Blood cells in rainbow trout *Oncorhynchus mykiss* milt: relation to milt collection method and sampling period, 62 (2004) 1353

Apoptosis

Effect of ovary holding temperature and time on equine granulosa cell apoptosis, oocyte chromatin configuration and cumulus morphology, 62 (2004) 468

Preimplantational embryo development and incidence of blastomere apoptosis in bovine somatic cell nuclear transfer embryos reconstructed with long-term cultured donor cells, 62 (2004) 512

Arcanobacterium pyogenes

Experimentally induced orchitis associated with *Arcanobacterium pyogenes*: clinical, ultrasono-

doi:10.1016/S0093-691X(04)00342-5

graphic, seminological and pathological features, 62 (2004) 1307

Aromatase

Isolation and characterization of goat ovarian aromatase cDNA: assessment of the activity using an intact cell system and placental expression, 62 (2004) 532

Aromatase inhibitor

Improvement in spermatogenic function after subcutaneous implantation of a capsule containing an aromatase inhibitor in four oligozoospermic dogs and one azoospermic dog with high plasma estradiol-17β concentrations, 62 (2004) 165

Artificial insemination

Semen characteristics, cryopreservation, and successful artificial insemination in the Blue rock pigeon (*Columba livia*), 62 (2004) 139

Abdominal pregnancies in farm rabbits, 62 (2004) 642

Artificial insemination following observational versus electronic methods of estrus detection in red deer hinds (*Cervus elephus*), 62 (2004) 652

Transcervical artificial insemination in sheep: effects of a new transcervical artificial insemination instrument and traversing the cervix on pregnancy and lambing rates, 62 (2004) 990

Lambing rates and litter sizes following intrauterine or cervical insemination of frozen/thawed semen with or without oxytocin administration, 62 (2004) 1236

Effect of the interval between estrus onset and artificial insemination on sex ratio and fertility in cattle: a field study, 62 (2004) 1264

Semen quality of postpubertal boars during increasing and decreasing natural photoperiods, 62 (2004) 1271

Effect of time of ovulation on fertilization after intrabursal transfer of spermatozoa (ITS): improvement of a new method for artificial insemination in mice, 62 (2004) 1417

Asian elephants

Evaluation of post-thaw Asian elephant (*Elephas maximus*) spermatozoa using flow cytometry: the effects of extender and cryoprotectant, 62 (2004) 748

ASMA

Automated sperm morphometry and morphology analysis of canine semen by the Hamilton-Thorne analyser, 62 (2004) 1292

Bacterial infection

Escherichia coli infections in newborn puppies—clinical and epidemiological investigations, 62 (2004) 562

Bayesian

A Bayesian approach to prediction of stallion daily sperm output, 62 (2004) 1607

Beef heifers

The use of estradiol and/or GnRH in a two-dose PGF protocol for breeding management of beef heifers, 62 (2004) 363

Estrus synchronization in beef heifers with progestin-based protocols. I. Differences in response based on pubertal status at the initiation of treatment, 62 (2004) 1518

Biopsed blastomeres

Sexing using single blastomere derived from IVF bovine embryos by fluorescence in situ hybridization (FISH), 62 (2004) 1452

Biopsy

Changes in EGF concentrations during estrous cycle in bovine endometrium and their alterations in repeat breeder cows, 62 (2004) 103

Birth interval

Parturition in gilts: duration of farrowing, birth intervals and placenta expulsion in relation to maternal, piglet and placental traits, 62 (2004) 331

Bisdiamine

Efficacy, safety and reversibility of bisdiamine as a male contraceptive in cats, 62 (2004) 81

Bitch

Changes in plasma gonadotropin concentrations and urethral closure pressure in the bitch during the 12 months following ovariectomy, 62 (2004) 1391

Blastocyst

A paucity of structural integrity in cloned porcine blastocysts produced in vitro, 62 (2004) 779

Follicle size-dependent effects of sow follicular fluid on in vitro cumulus expansion, nuclear maturation and blastocyst formation of sow cumulus oocytes complexes, 62 (2004) 1483

Blood cells

Blood cells in rainbow trout *Oncorhynchus mykiss* milt: relation to milt collection method and sampling period, 62 (2004) 1353

Blood vessel
Ovarian follicle vascularization in fasted pig, 62 (2004) 943

Blue rock pigeon
Semen characteristics, cryopreservation, and successful artificial insemination in the Blue rock pigeon (*Columba livia*), 62 (2004) 139

Boar
Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation, 62 (2004) 874
In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*, 62 (2004) 929
Semen quality of postpubertal boars during increasing and decreasing natural photoperiods, 62 (2004) 1271
Oral intake of shark liver oil modifies lipid composition and improves motility and velocity of boar sperm, 62 (2004) 1557
Effects of in vitro storage time and semen-extender on membrane quality of boar sperm assessed by flow cytometry, 62 (2004) 1638

Body condition
Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress, 62 (2004) 847

Bos indicus
Sexual development in early- and late-maturing *Bos indicus* and *Bos indicus* × *Bos taurus* crossbred bulls in Brazil, 62 (2004) 1198

Bovine
Examination of a modified cell cycle synchronization method and bovine nuclear transfer using synchronized early G1 phase fibroblast cells, 62 (2004) 714
A comparison of a mechanical sector and a linear array transducer for ultrasound-guided transvaginal oocyte retrieval (OPU) in the cow, 62 (2004) 906
Immunization in heifers with dual vaccines containing *Tritrichomonas foetus* and *Campylobacter fetus* antigens using systemic and mucosal routes, 62 (2004) 1367
Production of a healthy calf by somatic cell nuclear transfer without micromanipulators and carbon dioxide incubators using the Handmade Cloning (HMC) and the Submarine Incubation System (SIS), 62 (2004) 1465

Bovine embryo
Effect of prematuration, meiosis activating sterol and enriched maturation medium on the nuclear maturation and competence to development of calf oocytes, 62 (2004) 1093

Bovine embryo sexing
Sexing using single blastomere derived from IVF bovine embryos by fluorescence in situ hybridization (FISH), 62 (2004) 1452

Bovine embryos
Comparison on in vitro fertilized bovine embryos cultured in KSOM or SOF and cryopreserved by slow freezing or vitrification, 62 (2004) 437
Preimplantational embryo development and incidence of blastomere apoptosis in bovine somatic cell nuclear transfer embryos reconstructed with long-term cultured donor cells, 62 (2004) 512
Effect of protein supplementation in potassium simplex optimization medium on preimplantation development of bovine non-transgenic and transgenic cloned embryos, 62 (2004) 1403

Bovine oocyte
Origin of bovine follicular fluid and its effect during in vitro maturation on the developmental competence of bovine oocytes, 62 (2004) 1596

Bovine viral diarrhea virus
Different strains of noncytopathic bovine viral diarrhea virus (BVDV) vary in their affinity for in vivo-derived bovine embryos, 62 (2004) 45
Infectivity of bovine viral diarrhea virus associated with in vivo-derived bovine embryos, 62 (2004) 387

Brahman
Influence of season of birth on growth and reproductive development of Brahman bulls, 62 (2004) 93

Breed
Seasonal variation in testicular volume and sexual behavior of Chios and Serres rams, 62 (2004) 275

Breeding soundness
Hair whorl patterns on the bovine forehead may be related to breeding soundness measures, 62 (2004) 450

BtY2-L1

Sexing using single blastomere derived from IVF bovine embryos by fluorescence in situ hybridization (FISH), 62 (2004) 1452

Buffalo

Chemical activation of buffalo (*Bubalus bubalis*) oocytes by different methods: effects of aging on post-parthenogenetic development, 62 (2004) 1627

Bull

Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702

Sexual development in early- and late-maturing *Bos indicus* and *Bos indicus* × *Bos taurus* crossbred bulls in Brazil, 62 (2004) 1198

Occasional detection of *Neospora caninum* DNA in frozen extended semen from naturally infected bulls, 62 (2004) 1329

Bulls

Influence of season of birth on growth and reproductive development of Brahman bulls, 62 (2004) 93

Hair whorl patterns on the bovine forehead may be related to breeding soundness measures, 62 (2004) 450

Effects of heparin and sperm concentration on cleavage and blastocyst development rates of bovine oocytes inseminated with flow cytometrically-sorted sperm, 62 (2004) 819

Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves, 62 (2004) 861

BVDV

Different strains of noncytopathic bovine viral diarrhea virus (BVDV) vary in their affinity for in vivo-derived bovine embryos, 62 (2004) 45

Camel

Production of dromedary (*Camelus dromedarius*) embryos by IVM and IVF and co-culture with oviductal or granulosa cells, 62 (2004) 1175

Campylobacter fetus

Immunization in heifers with dual vaccines containing *Tritrichomonas foetus* and *Campylobacter fetus* antigens using systemic and mucosal routes, 62 (2004) 1367

Canine

Improvement in spermatogenic function after subcutaneous implantation of a capsule containing an aromatase inhibitor in four oligozoospermic dogs and one azoospermic dog with high plasma estradiol-17β concentrations, 62 (2004) 165

Proliferation patterns in the canine endometrium during the estrous cycle, 62 (2004) 631

Canine puppies

Escherichia coli infections in newborn puppies—clinical and epidemiological investigations, 62 (2004) 562

Capacitation

Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation, 62 (2004) 874

CASA

Semen characteristics, cryopreservation, and successful artificial insemination in the Blue rock pigeon (*Columba livia*), 62 (2004) 139

Effect of post-thaw incubation on sperm kinematics and acrosomal integrity of ram spermatozoa cryopreserved in medium-sized French straws, 62 (2004) 415

Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702

Comparative study of the reproductive characteristics of XY male and hormonally sex-reversed XX male Eurasian perch, *Perca fluviatilis*, 62 (2004) 790

Influence of glucose and fructose in the extender during long-term storage of chilled canine semen, 62 (2004) 1498

Cat

Efficacy, safety and reversibility of bisdiamine as a male contraceptive in cats, 62 (2004) 81

Correlation between fetal age and ultrasonographic measurements during the second half of pregnancy in domestic cats (*Felis catus*), 62 (2004) 1430

Cats

GnRH immunocontraception of male cats, 62 (2004) 1116

Cattle

A simple ultrasound test to predict the superstimulatory response in cattle, 62 (2004) 227

Estradiol benzoate given 0 or 24 h after the end of a progestagen treatment in postpartum suckled beef cows, 62 (2004) 265

Rapid sexing of bovine preimplantation embryos using loop-mediated isothermal amplification, 62 (2004) 887

Effect of the interval between estrus onset and artificial insemination on sex ratio and fertility in cattle: a field study, 62 (2004) 1264

Influence of repeated rectal ultrasound examinations on hormone profiles and behaviour around oestrus and ovulation in dairy cattle, 62 (2004) 1337

Cloning of Taiwan water buffalo male-specific DNA sequence for sexing, 62 (2004) 1536

Cell cycle

Examination of a modified cell cycle synchronization method and bovine nuclear transfer using synchronized early G1 phase fibroblast cells, 62 (2004) 714

Cell death

Exogenous γ-glutamyl cycle compounds supplemented to in vitro maturation medium influence in vitro fertilization, culture, and viability parameters of porcine oocytes and embryos, 62 (2004) 311

Cell number

Preimplantational embryo development and incidence of blastomere apoptosis in bovine somatic cell nuclear transfer embryos reconstructed with long-term cultured donor cells, 62 (2004) 512

Centrifugation/re-suspension

Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702

Cervix

Transcervical artificial insemination in sheep: effects of a new transcervical artificial insemination instrument and traversing the cervix on pregnancy and lambing rates, 62 (2004) 990

Changepoint

A Bayesian approach to prediction of stallion daily sperm output, 62 (2004) 1607

Chemical activation

Chemical activation of buffalo (*Bubalus bubalis*) oocytes by different methods: effects of aging on post-parthenogenetic development, 62 (2004) 1627

Chilled semen

Influence of glucose and fructose in the extender during long-term storage of chilled canine semen, 62 (2004) 1498

Chromatin

Comparison between the toluidine blue stain and the Feulgen reaction for evaluation of rabbit sperm chromatin condensation and their relationship with sperm morphology, 62 (2004) 398

Chromosome integrity

Ability to activate oocytes and chromosome integrity of mouse spermatozoa preserved in EGTA Tris–HCl buffered solution supplemented with antioxidants, 62 (2004) 897

CL

Comparison of four synchronization protocols for fixed-time bovine embryo transfer in *Bos indicus* × *Bos taurus* recipients, 62 (2004) 1577

Cleavage timing

Effect of the timing of the first cleavage on the developmental potential of nuclear-transferred mouse oocytes receiving embryonic stem cells, 62 (2004) 854

Cloacal gland

Isolation of *E. coli* from foam and effects of fluoroquinolones on *E. coli* and foam production in male Japanese quail, 62 (2004) 1383

Clone

Pre-weaning performance and health of pigs born to cloned (fetal cell derived) swine versus non-cloned swine, 62 (2004) 113

Cloprostenol

Reproductive performance of lactating dairy cows treated with cloprostenol at the time of insemination, 62 (2004) 677

Cloprostenol analogs

A sheer pharmacologic approach to compare the contractile effects of $PGF_{2\alpha}$, DL-cloprostenol and D-cloprostenol on isolated uterine, tracheal, ileal and arterial smooth muscle preparations, 62 (2004) 837

Coculture

Effects of granulosa coculture on in-vitro oocyte meiotic maturation within a putatively less competent murine model, 62 (2004) 1066

Co-culture

Production of dromedary (*Camelus dromedarius*) embryos by IVM and IVF and co-culture with oviductal or granulosa cells, 62 (2004) 1175

Coincubation time

Effect of short periods of sperm–oocyte coincubation during in vitro fertilization on embryo development in pigs, 62 (2004) 544

Comet assay

Effects of oxygen concentration and antioxidants on the in vitro developmental ability, production of reactive oxygen species (ROS), and DNA fragmentation in porcine embryos, 62 (2004) 1186

Contraceptive

Efficacy, safety and reversibility of bisdiamine as a male contraceptive in cats, 62 (2004) 81

Cooling rate

Vitrification of porcine embryos at various developmental stages using different ultra-rapid cooling procedures, 62 (2004) 353

Corpus luteum

Deslorelin on Day 8 or 12 postovulation does not luteinize follicles during an artificially maintained diestrous phase in the mare, 62 (2004) 57

Effect of fluorogestone acetate on embryo recovery and quality in eCG-superovulated goats with premature luteal regression, 62 (2004) 624

Pregnancy rates and metabolic profiles in cattle treated with propylene glycol prior to embryo transfer, 62 (2004) 664

Cow

Endometrial cytology and ultrasonography for the detection of subclinical endometritis in postpartum dairy cows, 62 (2004) 9

Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress, 62 (2004) 847

A comparison of a mechanical sector and a linear array transducer for ultrasound-guided transvaginal oocyte retrieval (OPU) in the cow, 62 (2004) 906

Cryopreservation

Semen characteristics, cryopreservation, and successful artificial insemination in the Blue rock pigeon (*Columba livia*), 62 (2004) 139

Initial studies on sperm cryopreservation of a live-bearing fish, the green swordtail *Xiphophorus helleri*, 62 (2004) 179

Evaluation of post-thaw Asian elephant (*Elephas maximus*) spermatozoa using flow cytometry: the effects of extender and cryoprotectant, 62 (2004) 748

Assessment of in vitro sperm characteristics after flow cytometric sorting of frozen-thawed bull spermatozoa, 62 (2004) 958

Sperm cryopreservation of a live-bearing fish, the platyfish *Xiphophorus couchianus*, 62 (2004) 971

Evaluation of alternative cryoprotectants for preserving stallion spermatozoa, 62 (2004) 1056

Methanol as a cryoprotectant for equine embryos, 62 (2004) 1153

Effects of egg yolk during the freezing step of cryopreservation on the viability of goat spermatozoa, 62 (2004) 1160

Cryoprotectant

Preliminary study on the cryopreservation of tropical bagrid catfish (*Mystus nemurus*) spermatozoa; the effect of extender and cryoprotectant on the motility after short-term storage, 62 (2004) 25

Evaluation of alternative cryoprotectants for preserving stallion spermatozoa, 62 (2004) 1056

Culture

Development of in vivo derived diploid and tetraploid pig embryos in a modified medium NCSU 37, 62 (2004) 155

Effects of heparin and sperm concentration on cleavage and blastocyst development rates of bovine oocytes inseminated with flow cytometrically-sorted sperm, 62 (2004) 819

Rapid growth and elongation of bovine blastocysts in vitro in a three-dimensional gel system, 62 (2004) 1253

Cyanide

Prenatal toxicity of cyanide in goats—a model for teratological studies in ruminants, 62 (2004) 1012

Cysteine

In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection, 62 (2004) 1663

Cytogenetics

High resolution DNA flow cytometry of boar sperm cells in identification of boars carrying cytogenetic aberrations, 62 (2004) 501

Cytosol receptors
Serum estradiol-17β, progesterone and respective uterine cytosol receptor concentrations in bitches with spontaneous pyometra, 62 (2004) 614

Dairy cattle
Changes in EGF concentrations during estrous cycle in bovine endometrium and their alterations in repeat breeder cows, 62 (2004) 103
Neospora caninum infection does not affect early pregnancy in dairy cattle, 62 (2004) 606
Prevalence of *Neospora caninum* infection in dairy cows and its consequences for reproductive management, 62 (2004) 1229

Dairy cows
Reproductive performance of lactating dairy cows treated with cloprostenol at the time of insemination, 62 (2004) 677
Follicular dynamics and concentrations of steroids and gonadotropins in lactating cows and nulliparous heifers, 62 (2004) 1042
Metabolic changes in follicular fluid of the dominant follicle in high-yielding dairy cows early post partum, 62 (2004) 1131
Progesterone supplementation during the early fetal period reduces pregnancy loss in high-yielding dairy cattle, 62 (2004) 1529

DAPI
Proliferation patterns in the canine endometrium during the estrous cycle, 62 (2004) 631

Defined medium
Effects of amino acids on maturation, fertilization and embryo development of pig follicular oocytes in two IVM media, 62 (2004) 1473
In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection, 62 (2004) 1663

Deslorelin
Effects of a new injectable short-term release deslorelin in foal-heat mares, 62 (2004) 831

Development
Rapid growth and elongation of bovine blastocysts in vitro in a three-dimensional gel system, 62 (2004) 1253
Birth of piglets by in vitro fertilization of zona-free porcine oocytes, 62 (2004) 1544

Developmental arrest
Sexing of murine and bovine embryos by developmental arrest induced by high-titer H-Y antisera, 62 (2004) 1569

Developmental stage
Vitrification of porcine embryos at various developmental stages using different ultra-rapid cooling procedures, 62 (2004) 353

Differential staining
A paucity of structural integrity in cloned porcine blastocysts produced in vitro, 62 (2004) 779

DNA amplification
Rapid sexing of bovine preimplantation embryos using loop-mediated isothermal amplification, 62 (2004) 887

DNA content
High resolution DNA flow cytometry of boar sperm cells in identification of boars carrying cytogenetic aberrations, 62 (2004) 501

DNA fragmentation
Effects of oxygen concentration and antioxidants on the in vitro developmental ability, production of reactive oxygen species (ROS), and DNA fragmentation in porcine embryos, 62 (2004) 1186

Dog
Effects of aglépristone, a progesterone receptor antagonist, administered during the early luteal phase in non-pregnant bitches, 62 (2004) 494
Serum estradiol-17β, progesterone and respective uterine cytosol receptor concentrations in bitches with spontaneous pyometra, 62 (2004) 614
Automated sperm morphometry and morphology analysis of canine semen by the Hamilton-Thorne analyser, 62 (2004) 1292
Influence of glucose and fructose in the extender during long-term storage of chilled canine semen, 62 (2004) 1498
Recovery, morphological quality, and in vitro maturation of follicular oocytes from bitches with pyometra, 62 (2004) 1652
Metabolic changes in follicular fluid of the dominant follicle in high-yielding dairy cows early post partum, 62 (2004) 1131

Domestic cat
Distribution of spermatozoa in the female reproductive tract of the domestic cat in relation to ovulation induced by natural mating, 62 (2004) 1027

Dominant follicle
The effect of different doses of Gonadorelin on ovarian follicle dynamics in river buffalo (*Bubalus bubalis*), 62 (2004) 1283

Double ovulation
Reproductive performance of lactating dairy cows treated with cloprostenol at the time of insemination, 62 (2004) 677

Dromedary
Production of dromedary (*Camelus dromedarius*) embryos by IVM and IVF and co-culture with oviductal or granulosa cells, 62 (2004) 1175

DSO
A Bayesian approach to prediction of stallion daily sperm output, 62 (2004) 1607

Early development
Origin of bovine follicular fluid and its effect during in vitro maturation on the developmental competence of bovine oocytes, 62 (2004) 1596

Early fetal loss
Progesterone supplementation during the early fetal period reduces pregnancy loss in high-yielding dairy cattle, 62 (2004) 1529

Early pregnancy
Neospora caninum infection does not affect early pregnancy in dairy cattle, 62 (2004) 606

eCG
Effect of fluorogestone acetate on embryo recovery and quality in eCG-superovulated goats with premature luteal regression, 62 (2004) 624
Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress, 62 (2004) 847
Comparison of four synchronization protocols for fixed-time bovine embryo transfer in *Bos indicus* × *Bos taurus* recipients, 62 (2004) 1577

Ectopic pregnancy
Abdominal pregnancies in farm rabbits, 62 (2004) 642

Effective dose
The effect of different doses of Gonadorelin on ovarian follicle dynamics in river buffalo (*Bubalus bubalis*), 62 (2004) 1283

EGF
Changes in EGF concentrations during estrous cycle in bovine endometrium and their alterations in repeat breeder cows, 62 (2004) 103

Egg yolk
Effects of egg yolk during the freezing step of cryopreservation on the viability of goat spermatozoa, 62 (2004) 1160

Ejaculated semen
Production of dromedary (*Camelus dromedarius*) embryos by IVM and IVF and co-culture with oviductal or granulosa cells, 62 (2004) 1175

Eletroejaculation
Collection and evaluation of semen from captive howler monkeys (*Alouatta caraya*), 62 (2004) 131

Embryo
Different strains of noncytopathic bovine viral diarrhea virus (BVDV) vary in their affinity for in vivo-derived bovine embryos, 62 (2004) 45
Development of in vivo derived diploid and tetraploid pig embryos in a modified medium NCSU 37, 62 (2004) 155
Exogenous γ-glutamyl cycle compounds supplemented to in vitro maturation medium influence in vitro fertilization, culture, and viability parameters of porcine oocytes and embryos, 62 (2004) 311
Reproduction results and offspring performance after non-surgical embryo transfer in pigs, 62 (2004) 522
Rapid sexing of bovine preimplantation embryos using loop-mediated isothermal amplification, 62 (2004) 887
Methanol as a cryoprotectant for equine embryos, 62 (2004) 1153
Rapid growth and elongation of bovine blastocysts in vitro in a three-dimensional gel system, 62 (2004) 1253
Origin of bovine follicular fluid and its effect during in vitro maturation on the developmental competence of bovine oocytes, 62 (2004) 1596

Embryo sexing
Sexing in vitro produced bovine embryos, at different stages of development, using rat H-Y antiserum, 62 (2004) 35
Sexing of murine and bovine embryos by developmental arrest induced by high-titer H-Y antisera, 62 (2004) 1569

Embryo transfer

Rate of abnormalities in lambs from in vitro produced embryos transferred on Day 2 compared with Day 6 postfertilization, 62 (2004) 195

Transfer of European mink (*Mustela lutreola*) embryos into hybrid recipients, 62 (2004) 458

Reproduction results and offspring performance after non-surgical embryo transfer in pigs, 62 (2004) 522

Pregnancy rates and metabolic profiles in cattle treated with propylene glycol prior to embryo transfer, 62 (2004) 664

Comparison of four synchronization protocols for fixed-time bovine embryo transfer in *Bos indicus* × *Bos taurus* recipients, 62 (2004) 1577

Embryo vitrification

Vitrification of porcine embryos at various developmental stages using different ultra-rapid cooling procedures, 62 (2004) 353

In vitro development following one-step dilution of OPS-vitrified porcine blastocysts, 62 (2004) 1144

Embryo warming

In vitro development following one-step dilution of OPS-vitrified porcine blastocysts, 62 (2004) 1144

Embryo washing

Infectivity of bovine viral diarrhea virus associated with in vivo-derived bovine embryos, 62 (2004) 387

Embryos

Birth of piglets by in vitro fertilization of zona-free porcine oocytes, 62 (2004) 1544

Endangered species

Transfer of European mink (*Mustela lutreola*) embryos into hybrid recipients, 62 (2004) 458

Production of a healthy calf by somatic cell nuclear transfer without micromanipulators and carbon dioxide incubators using the Handmade Cloning (HMC) and the Submarine Incubation System (SIS), 62 (2004) 1465

Endometrial cytology

Endometrial cytology and ultrasonography for the detection of subclinical endometritis in postpartum dairy cows, 62 (2004) 9

Endometrium

Changes in EGF concentrations during estrous cycle in bovine endometrium and their alterations in repeat breeder cows, 62 (2004) 103

Cell-specific expression of estrogen-responsive genes in the uteri of cyclic, early pregnant and ovariectomized ewes, 62 (2004) 403

Proliferation patterns in the canine endometrium during the estrous cycle, 62 (2004) 631

Epidermal growth factor

In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection, 62 (2004) 1663

Epididymis

In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*, 62 (2004) 929

Effect of time of ovulation on fertilization after intrabursal transfer of spermatozoa (ITS): improvement of a new method for artificial insemination in mice, 62 (2004) 1417

Epididymitis

Experimentally induced orchitis associated with *Arcanobacterium pyogenes*: clinical, ultrasonographic, seminological and pathological features, 62 (2004) 1307

Epithelial cells

In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*, 62 (2004) 929

Epithelium

In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*, 62 (2004) 929

Equine

Methanol as a cryoprotectant for equine embryos, 62 (2004) 1153

ES cells

Effect of the timing of the first cleavage on the developmental potential of nuclear-transferred mouse oocytes receiving embryonic stem cells, 62 (2004) 854

Escherichia coli

Escherichia coli infections in newborn puppies—clinical and epidemiological investigations, 62 (2004) 562

Estradiol-17β

Improvement in spermatogenic function after subcutaneous implantation of a capsule containing

an aromatase inhibitor in four oligozoospermic dogs and one azoospermic dog with high plasma estradiol-17β concentrations, 62 (2004) 165

Serum estradiol-17β, progesterone and respective uterine cytosol receptor concentrations in bitches with spontaneous pyometra, 62 (2004) 614

Estradiol

Estradiol benzoate given 0 or 24 h after the end of a progestagen treatment in postpartum suckled beef cows, 62 (2004) 265

The use of estradiol and/or GnRH in a two-dose PGF protocol for breeding management of beef heifers, 62 (2004) 363

Estrogen receptor genotype

Parturition in gilts: duration of farrowing, birth intervals and placenta expulsion in relation to maternal, piglet and placental traits, 62 (2004) 331

Estrous cycle

Prostaglandin $F_{2\alpha}$-induced estrus in ewes exhibiting estrous cycles of different duration, 62 (2004) 123

Proliferation patterns in the canine endometrium during the estrous cycle, 62 (2004) 631

Fecal steroid analysis for monitoring reproduction in the sun bear (*Helarctos malayanus*), 62 (2004) 1677

Estrous synchronization

Deslorelin on Day 8 or 12 postovulation does not luteinize follicles during an artificially maintained diestrous phase in the mare, 62 (2004) 57

Estrus

Artificial insemination following observational versus electronic methods of estrus detection in red deer hinds (*Cervus elephus*), 62 (2004) 652

Comparison of two estrus synchronization and resynchronization treatments in lactating dairy cows, 62 (2004) 729

Estrus detection

Artificial insemination following observational versus electronic methods of estrus detection in red deer hinds (*Cervus elephus*), 62 (2004) 652

Effect of the interval between estrus onset and artificial insemination on sex ratio and fertility in cattle: a field study, 62 (2004) 1264

Estrus onset

Effect of the interval between estrus onset and artificial insemination on sex ratio and fertility in cattle: a field study, 62 (2004) 1264

Estrus synchronization

The use of estradiol and/or GnRH in a two-dose PGF protocol for breeding management of beef heifers, 62 (2004) 363

Comparison of two estrus synchronization and resynchronization treatments in lactating dairy cows, 62 (2004) 729

Estrus synchronization in beef heifers with progestin-based protocols. I. Differences in response based on pubertal status at the initiation of treatment, 62 (2004) 1518

ETBS

Ability to activate oocytes and chromosome integrity of mouse spermatozoa preserved in EGTA Tris–HCl buffered solution supplemented with antioxidants, 62 (2004) 897

European mink

Transfer of European mink (*Mustela lutreola*) embryos into hybrid recipients, 62 (2004) 458

Ex situ preservation

Transfer of European mink (*Mustela lutreola*) embryos into hybrid recipients, 62 (2004) 458

Experimental model

Experimentally induced orchitis associated with *Arcanobacterium pyogenes*: clinical, ultrasonographic, seminological and pathological features, 62 (2004) 1307

Extender

Preliminary study on the cryopreservation of tropical bagrid catfish (*Mystus nemurus*) spermatozoa; the effect of extender and cryoprotectant on the motility after short-term storage, 62 (2004) 25

A retrospective study on the preserving capacity of a commercial boar semen extender, 62 (2004) 425

Farrowing

Parturition in gilts: duration of farrowing, birth intervals and placenta expulsion in relation to maternal, piglet and placental traits, 62 (2004) 331

Farrowing rate
Reproduction results and offspring performance after non-surgical embryo transfer in pigs, 62 (2004) 522

Fecal steroid analysis
Fecal steroid analysis for monitoring reproduction in the sun bear (*Helarctos malayanus*), 62 (2004) 1677

Feline
Distribution of spermatozoa in the female reproductive tract of the domestic cat in relation to ovulation induced by natural mating, 62 (2004) 1027

Female reproductive tract
Distribution of spermatozoa in the female reproductive tract of the domestic cat in relation to ovulation induced by natural mating, 62 (2004) 1027

Fertility
A retrospective study on the preserving capacity of a commercial boar semen extender, 62 (2004) 425
Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702
Effects of a new injectable short-term release deslorelin in foal-heat mares, 62 (2004) 831
Metabolic changes in follicular fluid of the dominant follicle in high-yielding dairy cows early post partum, 62 (2004) 1131
Prognostic value of spermatological parameters as predictors of in vitro fertility of frozen-thawed bull semen, 62 (2004) 1245
Isolation of *E. coli* from foam and effects of fluoroquinolones on *E. coli* and foam production in male Japanese quail, 62 (2004) 1383

Fertilization
Regulatory roles of ubiquitin–proteasome pathway in pig oocyte meiotic maturation and fertilization, 62 (2004) 245

Fetal cell
Pre-weaning performance and health of pigs born to cloned (fetal cell derived) swine versus non-cloned swine, 62 (2004) 113

Fetal oversize
Rate of abnormalities in lambs from in vitro produced embryos transferred on Day 2 compared with Day 6 postfertilization, 62 (2004) 195

Fetotoxicity
Prenatal toxicity of cyanide in goats—a model for teratological studies in ruminants, 62 (2004) 1012

FGA
Effect of fluorogestone acetate on embryo recovery and quality in eCG-superovulated goats with premature luteal regression, 62 (2004) 624

Fibroblast
Production of a healthy calf by somatic cell nuclear transfer without micromanipulators and carbon dioxide incubators using the Handmade Cloning (HMC) and the Submarine Incubation System (SIS), 62 (2004) 1465

Field trial
Effect of the interval between estrus onset and artificial insemination on sex ratio and fertility in cattle: a field study, 62 (2004) 1264

FISH
Sexing using single blastomere derived from IVF bovine embryos by fluorescence in situ hybridization (FISH), 62 (2004) 1452

Flow cytometry
High resolution DNA flow cytometry of boar sperm cells in identification of boars carrying cytogenetic aberrations, 62 (2004) 501
Evaluation of post-thaw Asian elephant (*Elephas maximus*) spermatozoa using flow cytometry: the effects of extender and cryoprotectant, 62 (2004) 748
Quality control in boar semen production by use of the FACSCount AF system, 62 (2004) 1218
Effects of in vitro storage time and semen-extender on membrane quality of boar sperm assessed by flow cytometry, 62 (2004) 1638

Fluoroquinolones
Isolation of *E. coli* from foam and effects of fluoroquinolones on *E. coli* and foam production in male Japanese quail, 62 (2004) 1383

Foam
Isolation of *E. coli* from foam and effects of fluoroquinolones on *E. coli* and foam production in male Japanese quail, 62 (2004) 1383

Follicle
Prostaglandin $F_{2\alpha}$-induced estrus in ewes exhibiting estrous cycles of different duration, 62 (2004) 123

Effect of ovary holding temperature and time on equine granulosa cell apoptosis, oocyte chromatin configuration and cumulus morphology, 62 (2004) 468

Isolation and characterization of goat ovarian aromatase cDNA: assessment of the activity using an intact cell system and placental expression, 62 (2004) 532

Ovarian follicle vascularization in fasted pig, 62 (2004) 943

Follicular dynamics and concentrations of steroids and gonadotropins in lactating cows and nulliparous heifers, 62 (2004) 1042

Origin of bovine follicular fluid and its effect during in vitro maturation on the developmental competence of bovine oocytes, 62 (2004) 1596

Follicle development

Ovarian follicle vascularization in fasted pig, 62 (2004) 943

Follicular dynamics

A simple ultrasound test to predict the superstimulatory response in cattle, 62 (2004) 227

Ultrasonographic evaluation of uterine involution and postpartum follicular dynamics in French Jennies (*Equus asinus*), 62 (2004) 257

Follicular fluid

Metabolic changes in follicular fluid of the dominant follicle in high-yielding dairy cows early post partum, 62 (2004) 1131

Follicle size-dependent effects of sow follicular fluid on in vitro cumulus expansion, nuclear maturation and blastocyst formation of sow cumulus oocytes complexes, 62 (2004) 1483

Food intake

Increasing feed intake in late gestation does not affect plasma progesterone concentration in the sow, 62 (2004) 1618

Freezability

Effects of the supplementation of trehalose extender containing egg yolk with sodium dodecyl sulfate on the freezability of goat spermatozoa, 62 (2004) 809

Freezing

Decrease in glutathione content in boar sperm after cryopreservation. Effect of the addition of reduced glutathione to the freezing and thawing extenders, 62 (2004) 690

Effects of egg yolk during the freezing step of cryopreservation on the viability of goat spermatozoa, 62 (2004) 1160

Fresh and frozen–thawed sperm

Effect of donor stimulation, frozen semen and heparin treatment on the efficiency of in vitro embryo production in goats, 62 (2004) 576

Fresh semen

Effects of different artificial insemination techniques and sperm doses on fertility of normal mares and mares with abnormal reproductive history, 62 (2004) 915

Frozen extended semen

Occasional detection of *Neospora caninum* DNA in frozen extended semen from naturally infected bulls, 62 (2004) 1329

Frozen semen

Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702

Effects of different artificial insemination techniques and sperm doses on fertility of normal mares and mares with abnormal reproductive history, 62 (2004) 915

Frozen-thawed bovine spermatozoa

Prognostic value of spermatological parameters as predictors of in vitro fertility of frozen-thawed bull semen, 62 (2004) 1245

Fructose

Influence of glucose and fructose in the extender during long-term storage of chilled canine semen, 62 (2004) 1498

FSH

Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves, 62 (2004) 861

Changes in plasma gonadotropin concentrations and urethral closure pressure in the bitch during the 12 months following ovariectomy, 62 (2004) 1391

Follicle size-dependent effects of sow follicular fluid on in vitro cumulus expansion, nuclear maturation and blastocyst formation of sow cumulus oocytes complexes, 62 (2004) 1483

Gene expression

Cell-specific expression of estrogen-responsive genes in the uteri of cyclic, early pregnant and ovariectomized ewes, 62 (2004) 403

Genetic parameters

Genetic parameters of libido in Brazilian Nellore bulls, 62 (2004) 1

Genetic parameters of multiple ovulation traits in Nellore females, 62 (2004) 1459

Germinal vesicle

Recovery, morphological quality, and in vitro maturation of follicular oocytes from bitches with pyometra, 62 (2004) 1652

Germplasm repositories

Initial studies on sperm cryopreservation of a live-bearing fish, the green swordtail *Xiphophorus helleri*, 62 (2004) 179

Sperm cryopreservation of a live-bearing fish, the platyfish *Xiphophorus couchianus*, 62 (2004) 971

Gilt

A retrospective study on the preserving capacity of a commercial boar semen extender, 62 (2004) 425

Gilt performance

Reproduction results and offspring performance after non-surgical embryo transfer in pigs, 62 (2004) 522

Glucose

Influence of glucose and fructose in the extender during long-term storage of chilled canine semen, 62 (2004) 1498

Glutathione

Exogenous γ-glutamyl cycle compounds supplemented to in vitro maturation medium influence in vitro fertilization, culture, and viability parameters of porcine oocytes and embryos, 62 (2004) 311

Decrease in glutathione content in boar sperm after cryopreservation. Effect of the addition of reduced glutathione to the freezing and thawing extenders, 62 (2004) 690

Effect of prematuration, meiosis activating sterol and enriched maturation medium on the nuclear maturation and competence to development of calf oocytes, 62 (2004) 1093

In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection, 62 (2004) 1663

Glycerol

Methanol as a cryoprotectant for equine embryos, 62 (2004) 1153

GnRH

Deslorelin on Day 8 or 12 postovulation does not luteinize follicles during an artificially maintained diestrous phase in the mare, 62 (2004) 57

The use of estradiol and/or GnRH in a two-dose PGF protocol for breeding management of beef heifers, 62 (2004) 363

Effects of a new injectable short-term release deslorelin in foal-heat mares, 62 (2004) 831

Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress, 62 (2004) 847

GnRH immunocontraception of male cats, 62 (2004) 1116

The effect of different doses of Gonadorelin on ovarian follicle dynamics in river buffalo (*Bubalus bubalis*), 62 (2004) 1283

Goat

Isolation and characterization of goat ovarian aromatase cDNA: assessment of the activity using an intact cell system and placental expression, 62 (2004) 532

Effect of donor stimulation, frozen semen and heparin treatment on the efficiency of in vitro embryo production in goats, 62 (2004) 576

Effects of the supplementation of trehalose extender containing egg yolk with sodium dodecyl sulfate on the freezability of goat spermatozoa, 62 (2004) 809

A comparison of diagnosis of pregnancy in the goat via transrectal ultrasound scanning, progesterone, and pregnancy-associated glycoprotein assays, 62 (2004) 1108

Goat spermatozoa

Effects of egg yolk during the freezing step of cryopreservation on the viability of goat spermatozoa, 62 (2004) 1160

Goats

Effect of fluorogestone acetate on embryo recovery and quality in eCG-superovulated goats with premature luteal regression, 62 (2004) 624

Gonadotropin

Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves, 62 (2004) 861

Granulosa
Effects of granulosa coculture on in-vitro oocyte meiotic maturation within a putatively less competent murine model, 62 (2004) 1066

Granulosa cells
Effect of ovary holding temperature and time on equine granulosa cell apoptosis, oocyte chromatin configuration and cumulus morphology, 62 (2004) 468

Hair whorls
Hair whorl patterns on the bovine forehead may be related to breeding soundness measures, 62 (2004) 450

Hamilton-Thorne
Automated sperm morphometry and morphology analysis of canine semen by the Hamilton-Thorne analyser, 62 (2004) 1292

Heat stress
Reproductive performance of lactating dairy cows treated with cloprostenol at the time of insemination, 62 (2004) 677

Heifers
Follicular dynamics and concentrations of steroids and gonadotropins in lactating cows and nulliparous heifers, 62 (2004) 1042

Heparin
Effects of PDC-109 on bovine sperm functional activity in presence or absence of heparin, 62 (2004) 207

Hierarchal
A Bayesian approach to prediction of stallion daily sperm output, 62 (2004) 1607

High producing
Metabolic changes in follicular fluid of the dominant follicle in high-yielding dairy cows early post partum, 62 (2004) 1131

Hormones
Follicular dynamics and concentrations of steroids and gonadotropins in lactating cows and nulliparous heifers, 62 (2004) 1042

Horse
Effect of ovary holding temperature and time on equine granulosa cell apoptosis, oocyte chromatin configuration and cumulus morphology, 62 (2004) 468

Howler monkey
Collection and evaluation of semen from captive howler monkeys (*Alouatta caraya*), 62 (2004) 131

H-Y antigen
Sexing in vitro produced bovine embryos, at different stages of development, using rat H-Y antiserum, 62 (2004) 35

H-Y antisera
Sexing of murine and bovine embryos by developmental arrest induced by high-titer H-Y antisera, 62 (2004) 1569

Hyaluronidase
Effects of levamisole on hyaluronidase activity and sperm characteristics in rams, 62 (2004) 323

Hydrogen peroxide
Effects of oxygen concentration and antioxidants on the in vitro developmental ability, production of reactive oxygen species (ROS), and DNA fragmentation in porcine embryos, 62 (2004) 1186

Hyperactivation
Effect of plasmin on movement characteristics of ejaculated bull spermatozoa, 62 (2004) 553

Hysteroscopic insemination
Effects of different artificial insemination techniques and sperm doses on fertility of normal mares and mares with abnormal reproductive history, 62 (2004) 915

Immunocontraception
GnRH immunocontraception of male cats, 62 (2004) 1116

In vitro
Effect of prematuration, meiosis activating sterol and enriched maturation medium on the nuclear maturation and competence to development of calf oocytes, 62 (2004) 1093

In vitro culture
In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*, 62 (2004) 929

In vitro development
Effects of oxygen concentration and antioxidants on the in vitro developmental ability, production of reactive oxygen species (ROS), and DNA fragmentation in porcine embryos, 62 (2004) 1186

In vitro embryo production
Changes in ovarian, follicular, and oocyte morphology immediately after the onset of puberty are not accompanied by an increase in oocyte developmental competence in the pig, 62 (2004) 1003

In vitro fertilization
Effect of short periods of sperm–oocyte coincubation during in vitro fertilization on embryo development in pigs, 62 (2004) 544
A paucity of structural integrity in cloned porcine blastocysts produced in vitro, 62 (2004) 779
Birth of piglets by in vitro fertilization of zona-free porcine oocytes, 62 (2004) 1544
Origin of bovine follicular fluid and its effect during in vitro maturation on the developmental competence of bovine oocytes, 62 (2004) 1596

In vitro maturation
Recovery, morphological quality, and in vitro maturation of follicular oocytes from bitches with pyometra, 62 (2004) 1652
In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection, 62 (2004) 1663

In vitro produced
Comparison of different vitrification protocols on viability after transfer of ovine blastocysts in vitro produced and in vivo derived, 62 (2004) 481

In vitro produced bovine embryos
Sexing in vitro produced bovine embryos, at different stages of development, using rat H-Y antiserum, 62 (2004) 35

In vivo derived
Comparison of different vitrification protocols on viability after transfer of ovine blastocysts in vitro produced and in vivo derived, 62 (2004) 481

Induced ovulation
Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress, 62 (2004) 847

Insemination
Luteal function and conception in lactating cows and some factors influencing luteal function after first insemination, 62 (2004) 217
Quality control in boar semen production by use of the FACSCount AF system, 62 (2004) 1218

Interestrous interval
Effects of aglépristone, a progesterone receptor antagonist, administered during the early luteal phase in non-pregnant bitches, 62 (2004) 494

Intrabursal transfer
Effect of time of ovulation on fertilization after intrabursal transfer of spermatozoa (ITS): improvement of a new method for artificial insemination in mice, 62 (2004) 1417

Intracytoplasmic sperm injection
In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection, 62 (2004) 1663

IVC
Effect of donor stimulation, frozen semen and heparin treatment on the efficiency of in vitro embryo production in goats, 62 (2004) 576

IVF
Effect of donor stimulation, frozen semen and heparin treatment on the efficiency of in vitro embryo production in goats, 62 (2004) 576
Decrease in glutathione content in boar sperm after cryopreservation. Effect of the addition of reduced glutathione to the freezing and thawing extenders, 62 (2004) 690
Effects of heparin and sperm concentration on cleavage and blastocyst development rates of bovine oocytes inseminated with flow cytometrically-sorted sperm, 62 (2004) 819
Production of dromedary (*Camelus dromedarius*) embryos by IVM and IVF and co-culture with oviductal or granulosa cells, 62 (2004) 1175

IVM
Effect of donor stimulation, frozen semen and heparin treatment on the efficiency of in vitro embryo production in goats, 62 (2004) 576

IVP
Rate of abnormalities in lambs from in vitro produced embryos transferred on Day 2 compared with Day 6 postfertilization, 62 (2004) 195

Japanese quail
Isolation of *E. coli* from foam and effects of fluoroquinolones on *E. coli* and foam production in male Japanese quail, 62 (2004) 1383

Jennies
Ultrasonographic evaluation of uterine involution and postpartum follicular dynamics in French Jennies (*Equus asinus*), 62 (2004) 257

Ki-67
Proliferation patterns in the canine endometrium during the estrous cycle, 62 (2004) 631

KSOM
Comparison on in vitro fertilized bovine embryos cultured in KSOM or SOF and cryopreserved by slow freezing or vitrification, 62 (2004) 437

Ladder
Germ cell apoptosis in the testes of normal stallions, 62 (2004) 283

Lambing
Comparison of different vitrification protocols on viability after transfer of ovine blastocysts in vitro produced and in vivo derived, 62 (2004) 481

LAMP
Rapid sexing of bovine preimplantation embryos using loop-mediated isothermal amplification, 62 (2004) 887

Large offspring
Rate of abnormalities in lambs from in vitro produced embryos transferred on Day 2 compared with Day 6 postfertilization, 62 (2004) 195

Late gestation
Increasing feed intake in late gestation does not affect plasma progesterone concentration in the sow, 62 (2004) 1618

L-Carnitine
Effect of L-carnitine administration on the seminal characteristics of oligoasthenospermic stallions, 62 (2004) 761

Levamisole
Effects of levamisole on hyaluronidase activity and sperm characteristics in rams, 62 (2004) 323

LH
Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves, 62 (2004) 861
Changes in plasma gonadotropin concentrations and urethral closure pressure in the bitch during the 12 months following ovariectomy, 62 (2004) 1391

Libido
Genetic parameters of libido in Brazilian Nellore bulls, 62 (2004) 1

Linear array transducer
A comparison of a mechanical sector and a linear array transducer for ultrasound-guided transvaginal oocyte retrieval (OPU) in the cow, 62 (2004) 906

Liquid semen storage
Effects of in vitro storage time and semen-extender on membrane quality of boar sperm assessed by flow cytometry, 62 (2004) 1638

Liquid storage
Liquid storage of flow cytometrically sorted ram spermatozoa, 62 (2004) 587

Litter size
Reproduction results and offspring performance after non-surgical embryo transfer in pigs, 62 (2004) 522
Quality control in boar semen production by use of the FACSCount AF system, 62 (2004) 1218
Lambing rates and litter sizes following intrauterine or cervical insemination of frozen/thawed semen with or without oxytocin administration, 62 (2004) 1236

Long-term culture
Preimplantational embryo development and incidence of blastomere apoptosis in bovine somatic cell nuclear transfer embryos reconstructed with long-term cultured donor cells, 62 (2004) 512

Low-dose insemination
Effects of different artificial insemination techniques and sperm doses on fertility of normal mares and mares with abnormal reproductive history, 62 (2004) 915

Luteal function
Luteal function and conception in lactating cows and some factors influencing luteal function after first insemination, 62 (2004) 217

Luteal phase
Effects of aglépristone, a progesterone receptor antagonist, administered during the early luteal phase in non-pregnant bitches, 62 (2004) 494

Male
Efficacy, safety and reversibility of bisdiamine as a male contraceptive in cats, 62 (2004) 81

Male-specific DNA sequences
Cloning of Taiwan water buffalo male-specific DNA sequence for sexing, 62 (2004) 1536

Mare
Deslorelin on Day 8 or 12 postovulation does not luteinize follicles during an artificially maintained diestrous phase in the mare, 62 (2004) 57
Effects of a new injectable short-term release deslorelin in foal-heat mares, 62 (2004) 831

Maturation
Effects of amino acids on maturation, fertilization and embryo development of pig follicular oocytes in two IVM media, 62 (2004) 1473

Meiosis
Regulatory roles of ubiquitin–proteasome pathway in pig oocyte meiotic maturation and fertilization, 62 (2004) 245
Effects of granulosa coculture on in-vitro oocyte meiotic maturation within a putatively less competent murine model, 62 (2004) 1066

Meiosis inhibitor
Effect of prematuration, meiosis activating sterol and enriched maturation medium on the nuclear maturation and competence to development of calf oocytes, 62 (2004) 1093

Membrane integrity
Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702
Prognostic value of spermatological parameters as predictors of in vitro fertility of frozen-thawed bull semen, 62 (2004) 1245

Metabolic parameters
Pregnancy rates and metabolic profiles in cattle treated with propylene glycol prior to embryo transfer, 62 (2004) 664

Metabolites
Metabolic changes in follicular fluid of the dominant follicle in high-yielding dairy cows early post partum, 62 (2004) 1131

Methanol
Methanol as a cryoprotectant for equine embryos, 62 (2004) 1153

MGA
Estrus synchronization in beef heifers with progestin-based protocols. I. Differences in response based on pubertal status at the initiation of treatment, 62 (2004) 1518

Mice
Effect of the timing of the first cleavage on the developmental potential of nuclear-transferred mouse oocytes receiving embryonic stem cells, 62 (2004) 854

Mitotic phase
Examination of a modified cell cycle synchronization method and bovine nuclear transfer using synchronized early G1 phase fibroblast cells, 62 (2004) 714

MOET
Genetic parameters of multiple ovulation traits in Nellore females, 62 (2004) 1459

Morphological abnormalities
Comparison between the toluidine blue stain and the Feulgen reaction for evaluation of rabbit sperm chromatin condensation and their relationship with sperm morphology, 62 (2004) 398

Morphology
Morphological and ultrastructural analysis of sheep primordial follicles preserved in 0.9% saline solution and TCM 199, 62 (2004) 65
Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702
Automated sperm morphometry and morphology analysis of canine semen by the Hamilton-Thorne analyser, 62 (2004) 1292

Motility
Preliminary study on the cryopreservation of tropical bagrid catfish (*Mystus nemurus*) spermatozoa; the effect of extender and cryoprotectant on the motility after short-term storage, 62 (2004) 25
Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation, 62 (2004) 874
Oral intake of shark liver oil modifies lipid composition and improves motility and velocity of boar sperm, 62 (2004) 1557

Mouse

Effects of granulosa coculture on in-vitro oocyte meiotic maturation within a putatively less competent murine model, 62 (2004) 1066

Mouse spermatozoa

Ability to activate oocytes and chromosome integrity of mouse spermatozoa preserved in EGTA Tris–HCl buffered solution supplemented with antioxidants, 62 (2004) 897

Mustelidae

Transfer of European mink (*Mustela lutreola*) embryos into hybrid recipients, 62 (2004) 458

Mystus nemurus

Preliminary study on the cryopreservation of tropical bagrid catfish (*Mystus nemurus*) spermatozoa; the effect of extender and cryoprotectant on the motility after short-term storage, 62 (2004) 25

Natural mating

Distribution of spermatozoa in the female reproductive tract of the domestic cat in relation to ovulation induced by natural mating, 62 (2004) 1027

NCSU 37

Development of in vivo derived diploid and tetraploid pig embryos in a modified medium NCSU 37, 62 (2004) 155

Nellore bulls

Genetic parameters of libido in Brazilian Nellore bulls, 62 (2004) 1

Neospora caninum

Neospora caninum infection does not affect early pregnancy in dairy cattle, 62 (2004) 606

Occasional detection of *Neospora caninum* DNA in frozen extended semen from naturally infected bulls, 62 (2004) 1329

Neosporosis

Prevalence of *Neospora caninum* infection in dairy cows and its consequences for reproductive management, 62 (2004) 1229

Non-clone

Pre-weaning performance and health of pigs born to cloned (fetal cell derived) swine versus non-cloned swine, 62 (2004) 113

Nuclear transfer

Preimplantational embryo development and incidence of blastomere apoptosis in bovine somatic cell nuclear transfer embryos reconstructed with long-term cultured donor cells, 62 (2004) 512

Examination of a modified cell cycle synchronization method and bovine nuclear transfer using synchronized early G1 phase fibroblast cells, 62 (2004) 714

A paucity of structural integrity in cloned porcine blastocysts produced in vitro, 62 (2004) 779

Effect of the timing of the first cleavage on the developmental potential of nuclear-transferred mouse oocytes receiving embryonic stem cells, 62 (2004) 854

Rapid growth and elongation of bovine blastocysts in vitro in a three-dimensional gel system, 62 (2004) 1253

Effect of protein supplementation in potassium simplex optimization medium on preimplantation development of bovine non-transgenic and transgenic cloned embryos, 62 (2004) 1403

Oestrus

Influence of repeated rectal ultrasound examinations on hormone profiles and behaviour around oestrus and ovulation in dairy cattle, 62 (2004) 1337

Offspring

Effect of donor stimulation, frozen semen and heparin treatment on the efficiency of in vitro embryo production in goats, 62 (2004) 576

Examination of a modified cell cycle synchronization method and bovine nuclear transfer using synchronized early G1 phase fibroblast cells, 62 (2004) 714

One-step dilution

In vitro development following one-step dilution of OPS-vitrified porcine blastocysts, 62 (2004) 1144

Onset of puberty

Changes in ovarian, follicular, and oocyte morphology immediately after the onset of puberty are not accompanied by an increase in oocyte developmental competence in the pig, 62 (2004) 1003

Oocyte

Regulatory roles of ubiquitin–proteasome pathway in pig oocyte meiotic maturation and fertilization, 62 (2004) 245

Exogenous γ-glutamyl cycle compounds supplemented to in vitro maturation medium influence in vitro fertilization, culture, and viability parameters of porcine oocytes and embryos, 62 (2004) 311

Effect of ovary holding temperature and time on equine granulosa cell apoptosis, oocyte chromatin configuration and cumulus morphology, 62 (2004) 468

Effect of short periods of sperm–oocyte coincubation during in vitro fertilization on embryo development in pigs, 62 (2004) 544

Ability to activate oocytes and chromosome integrity of mouse spermatozoa preserved in EGTA Tris–HCl buffered solution supplemented with antioxidants, 62 (2004) 897

Effects of granulosa coculture on in-vitro oocyte meiotic maturation within a putatively less competent murine model, 62 (2004) 1066

Production of dromedary (*Camelus dromedarius*) embryos by IVM and IVF and co-culture with oviductal or granulosa cells, 62 (2004) 1175

Effects of amino acids on maturation, fertilization and embryo development of pig follicular oocytes in two IVM media, 62 (2004) 1473

Birth of piglets by in vitro fertilization of zona-free porcine oocytes, 62 (2004) 1544

Recovery, morphological quality, and in vitro maturation of follicular oocytes from bitches with pyometra, 62 (2004) 1652

Oocyte aging

Chemical activation of buffalo (*Bubalus bubalis*) oocytes by different methods: effects of aging on post-parthenogenetic development, 62 (2004) 1627

Oocyte developmental competence

Changes in ovarian, follicular, and oocyte morphology immediately after the onset of puberty are not accompanied by an increase in oocyte developmental competence in the pig, 62 (2004) 1003

Oocyte recovery

A comparison of a mechanical sector and a linear array transducer for ultrasound-guided transvaginal oocyte retrieval (OPU) in the cow, 62 (2004) 906

Orchitis

Experimentally induced orchitis associated with *Arcanobacterium pyogenes*: clinical, ultrasonographic, seminological and pathological features, 62 (2004) 1307

Osmotic pressure

Initial studies on sperm cryopreservation of a live-bearing fish, the green swordtail *Xiphophorus helleri*, 62 (2004) 179

Ovarian follicles

Deslorelin on Day 8 or 12 postovulation does not luteinize follicles during an artificially maintained diestrous phase in the mare, 62 (2004) 57

Ovarian morphology

Changes in ovarian, follicular, and oocyte morphology immediately after the onset of puberty are not accompanied by an increase in oocyte developmental competence in the pig, 62 (2004) 1003

Ovary

Prostaglandin $F_{2\alpha}$-induced estrus in ewes exhibiting estrous cycles of different duration, 62 (2004) 123

Estradiol benzoate given 0 or 24 h after the end of a progestagen treatment in postpartum suckled beef cows, 62 (2004) 265

Isolation and characterization of goat ovarian aromatase cDNA: assessment of the activity using an intact cell system and placental expression, 62 (2004) 532

Ovarian follicle vascularization in fasted pig, 62 (2004) 943

Effect of time of ovulation on fertilization after intrabursal transfer of spermatozoa (ITS): improvement of a new method for artificial insemination in mice, 62 (2004) 1417

Oviduct

Distribution of spermatozoa in the female reproductive tract of the domestic cat in relation to ovulation induced by natural mating, 62 (2004) 1027

Effect of time of ovulation on fertilization after intrabursal transfer of spermatozoa (ITS): improvement of a new method for artificial insemination in mice, 62 (2004) 1417

Ovine

Rate of abnormalities in lambs from in vitro produced embryos transferred on Day 2 compared with Day 6 postfertilization, 62 (2004) 195

Ovulation

Influence of repeated rectal ultrasound examinations on hormone profiles and behaviour around oestrus and ovulation in dairy cattle, 62 (2004) 1337

Ovulation induction

Reproductive performance of lactating dairy cows treated with cloprostenol at the time of insemination, 62 (2004) 677

Ovum pick-up

A comparison of a mechanical sector and a linear array transducer for ultrasound-guided transvaginal oocyte retrieval (OPU) in the cow, 62 (2004) 906

Oxygen concentration

Effects of oxygen concentration and antioxidants on the in vitro developmental ability, production of reactive oxygen species (ROS), and DNA fragmentation in porcine embryos, 62 (2004) 1186

Oxygen tension

Effects of oxygen tension on the development and quality of porcine in vitro fertilized embryos, 62 (2004) 1585

Oxytocin

Lambing rates and litter sizes following intrauterine or cervical insemination of frozen/thawed semen with or without oxytocin administration, 62 (2004) 1236

PAG

Effects of an experimental *Trypanosoma congolense* infection on the reproductive performance of West African Dwarf goats, 62 (2004) 1438

Pathogens

Different strains of noncytopathic bovine viral diarrhea virus (BVDV) vary in their affinity for in vivo-derived bovine embryos, 62 (2004) 45

PCR

Occasional detection of *Neospora caninum* DNA in frozen extended semen from naturally infected bulls, 62 (2004) 1329

Cloning of Taiwan water buffalo male-specific DNA sequence for sexing, 62 (2004) 1536

PDC-109

Effects of PDC-109 on bovine sperm functional activity in presence or absence of heparin, 62 (2004) 207

Perca fluviatilis

Comparative study of the reproductive characteristics of XY male and hormonally sex-reversed XX male Eurasian perch, *Perca fluviatilis*, 62 (2004) 790

PFGE

Escherichia coli infections in newborn puppies—clinical and epidemiological investigations, 62 (2004) 562

$PGF_{2\alpha}$

Prostaglandin $F_{2\alpha}$-induced estrus in ewes exhibiting estrous cycles of different duration, 62 (2004) 123

A sheer pharmacologic approach to compare the contractile effects of $PGF_{2\alpha}$, DL-cloprostenol and D-cloprostenol on isolated uterine, tracheal, ileal and arterial smooth muscle preparations, 62 (2004) 837

Photoperiod

Semen quality of postpubertal boars during increasing and decreasing natural photoperiods, 62 (2004) 1271

Pig

Development of in vivo derived diploid and tetraploid pig embryos in a modified medium NCSU 37, 62 (2004) 155

Regulatory roles of ubiquitin–proteasome pathway in pig oocyte meiotic maturation and fertilization, 62 (2004) 245

Parturition in gilts: duration of farrowing, birth intervals and placenta expulsion in relation to maternal, piglet and placental traits, 62 (2004) 331

Effects of amino acids on maturation, fertilization and embryo development of pig follicular oocytes in two IVM media, 62 (2004) 1473

Pig spermatozoa

Decrease in glutathione content in boar sperm after cryopreservation. Effect of the addition of reduced glutathione to the freezing and thawing extenders, 62 (2004) 690

Placenta

Parturition in gilts: duration of farrowing, birth intervals and placenta expulsion in relation to maternal, piglet and placental traits, 62 (2004) 331

Isolation and characterization of goat ovarian aromatase cDNA: assessment of the activity using an intact cell system and placental expression, 62 (2004) 532

Ploidy

Development of in vivo derived diploid and tetraploid pig embryos in a modified medium NCSU 37, 62 (2004) 155

Porcine

Exogenous γ-glutamyl cycle compounds supplemented to in vitro maturation medium influence in vitro fertilization, culture, and viability parameters of porcine oocytes and embryos, 62 (2004) 311

Vitrification of porcine embryos at various developmental stages using different ultra-rapid cooling procedures, 62 (2004) 353

Effect of short periods of sperm–oocyte coincubation during in vitro fertilization on embryo development in pigs, 62 (2004) 544

A paucity of structural integrity in cloned porcine blastocysts produced in vitro, 62 (2004) 779

In vitro development following one-step dilution of OPS-vitrified porcine blastocysts, 62 (2004) 1144

Follicle size-dependent effects of sow follicular fluid on in vitro cumulus expansion, nuclear maturation and blastocyst formation of sow cumulus oocytes complexes, 62 (2004) 1483

Birth of piglets by in vitro fertilization of zona-free porcine oocytes, 62 (2004) 1544

In vitro maturation of porcine oocytes using a defined medium and developmental capacity after intracytoplasmic sperm injection, 62 (2004) 1663

Porcine embryo

Effects of oxygen concentration and antioxidants on the in vitro developmental ability, production of reactive oxygen species (ROS), and DNA fragmentation in porcine embryos, 62 (2004) 1186

Effects of oxygen tension on the development and quality of porcine in vitro fertilized embryos, 62 (2004) 1585

Porcine zona pellucida protein

Fecal steroid analysis for monitoring reproduction in the sun bear (*Helarctos malayanus*), 62 (2004) 1677

Portable incubator

Effects of oxygen tension on the development and quality of porcine in vitro fertilized embryos, 62 (2004) 1585

Post-hatching

Rapid growth and elongation of bovine blastocysts in vitro in a three-dimensional gel system, 62 (2004) 1253

Postpartum

Ultrasonographic evaluation of uterine involution and postpartum follicular dynamics in French Jennies (*Equus asinus*), 62 (2004) 257

Hormonal induction of ovulation and artificial insemination in suckled beef cows under nutritional stress, 62 (2004) 847

Postpartum estrus

Effects of a new injectable short-term release deslorelin in foal-heat mares, 62 (2004) 831

Post-thawing incubation

Effect of post-thaw incubation on sperm kinematics and acrosomal integrity of ram spermatozoa cryopreserved in medium-sized French straws, 62 (2004) 415

Potassium simplex optimization medium

Effect of protein supplementation in potassium simplex optimization medium on preimplantation development of bovine non-transgenic and transgenic cloned embryos, 62 (2004) 1403

Pregnancy

Luteal function and conception in lactating cows and some factors influencing luteal function after first insemination, 62 (2004) 217

Lambing rates and litter sizes following intrauterine or cervical insemination of frozen/thawed semen with or without oxytocin administration, 62 (2004) 1236

Correlation between fetal age and ultrasonographic measurements during the second half of pregnancy in domestic cats (*Felis catus*), 62 (2004) 1430

Pregnancy diagnosis

A comparison of diagnosis of pregnancy in the goat via transrectal ultrasound scanning, progesterone, and pregnancy-associated glycoprotein assays, 62 (2004) 1108

Pregnancy rate

Effects of different artificial insemination techniques and sperm doses on fertility of normal mares and mares with abnormal reproductive history, 62 (2004) 915

Pregnancy-associated glycoprotein (PAG)

A comparison of diagnosis of pregnancy in the goat via transrectal ultrasound scanning, progesterone, and pregnancy-associated glycoprotein assays, 62 (2004) 1108

Premature luteolysis
Effect of fluorogestone acetate on embryo recovery and quality in eCG-superovulated goats with premature luteal regression, 62 (2004) 624

Prepubertal
Effect of prematuration, meiosis activating sterol and enriched maturation medium on the nuclear maturation and competence to development of calf oocytes, 62 (2004) 1093

Preservation
Morphological and ultrastructural analysis of sheep primordial follicles preserved in 0.9% saline solution and TCM 199, 62 (2004) 65

Pre-weaning
Pre-weaning performance and health of pigs born to cloned (fetal cell derived) swine versus non-cloned swine, 62 (2004) 113

Primates
Collection and evaluation of semen from captive howler monkeys (*Alouatta caraya*), 62 (2004) 131

Primordial follicle
Morphological and ultrastructural analysis of sheep primordial follicles preserved in 0.9% saline solution and TCM 199, 62 (2004) 65

Progestagen
Estradiol benzoate given 0 or 24 h after the end of a progestagen treatment in postpartum suckled beef cows, 62 (2004) 265

Progesterone
Deslorelin on Day 8 or 12 postovulation does not luteinize follicles during an artificially maintained diestrous phase in the mare, 62 (2004) 57
Serum estradiol-17β, progesterone and respective uterine cytosol receptor concentrations in bitches with spontaneous pyometra, 62 (2004) 614
Pregnancy rates and metabolic profiles in cattle treated with propylene glycol prior to embryo transfer, 62 (2004) 664
A comparison of diagnosis of pregnancy in the goat via transrectal ultrasound scanning, progesterone, and pregnancy-associated glycoprotein assays, 62 (2004) 1108
Effects of an experimental *Trypanosoma congolense* infection on the reproductive performance of West African Dwarf goats, 62 (2004) 1438
Comparison of four synchronization protocols for fixed-time bovine embryo transfer in *Bos indicus* × *Bos taurus* recipients, 62 (2004) 1577
Increasing feed intake in late gestation does not affect plasma progesterone concentration in the sow, 62 (2004) 1618

Progesterone receptor antagonist
Effects of aglépristone, a progesterone receptor antagonist, administered during the early luteal phase in non-pregnant bitches, 62 (2004) 494

Progesterone supplementation
Progesterone supplementation during the early fetal period reduces pregnancy loss in high-yielding dairy cattle, 62 (2004) 1529

Progestin
Estrus synchronization in beef heifers with progestin-based protocols. I. Differences in response based on pubertal status at the initiation of treatment, 62 (2004) 1518

Prolactin
Effects of aglépristone, a progesterone receptor antagonist, administered during the early luteal phase in non-pregnant bitches, 62 (2004) 494

Propylene glycol
Pregnancy rates and metabolic profiles in cattle treated with propylene glycol prior to embryo transfer, 62 (2004) 664

Prostaglandin
The use of estradiol and/or GnRH in a two-dose PGF protocol for breeding management of beef heifers, 62 (2004) 363

Protein nutrition
Effect of undegradable protein supply on testicular size, spermiogram parameters and sexual behavior of mature Assaf rams, 62 (2004) 299

Proteolytic enzymes
Effect of plasmin on movement characteristics of ejaculated bull spermatozoa, 62 (2004) 553

Puberty
Influence of season of birth on growth and reproductive development of Brahman bulls, 62 (2004) 93
Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves, 62 (2004) 861

Sexual development in early- and late-maturing *Bos indicus* and *Bos indicus* × *Bos taurus* crossbred bulls in Brazil, 62 (2004) 1198

Pyometra

Serum estradiol-17β, progesterone and respective uterine cytosol receptor concentrations in bitches with spontaneous pyometra, 62 (2004) 614

Recovery, morphological quality, and in vitro maturation of follicular oocytes from bitches with pyometra, 62 (2004) 1652

Quality

Quality control in boar semen production by use of the FACSCount AF system, 62 (2004) 1218

Rabbit

Comparison between the toluidine blue stain and the Feulgen reaction for evaluation of rabbit sperm chromatin condensation and their relationship with sperm morphology, 62 (2004) 398

Rabbit doe

Abdominal pregnancies in farm rabbits, 62 (2004) 642

Rabbitrie

Abdominal pregnancies in farm rabbits, 62 (2004) 642

Rainbow trout

Seminal plasma proteins prolong the viability of rainbow trout (*Oncorynchus mykiss*) spermatozoa, 62 (2004) 801

Blood cells in rainbow trout *Oncorhynchus mykiss* milt: relation to milt collection method and sampling period, 62 (2004) 1353

Ram

Seasonal variation in testicular volume and sexual behavior of Chios and Serres rams, 62 (2004) 275

Effect of undegradable protein supply on testicular size, spermiogram parameters and sexual behavior of mature Assaf rams, 62 (2004) 299

Effects of levamisole on hyaluronidase activity and sperm characteristics in rams, 62 (2004) 323

RAPD

Cloning of Taiwan water buffalo male-specific DNA sequence for sexing, 62 (2004) 1536

Red deer

Artificial insemination following observational versus electronic methods of estrus detection in red deer hinds (*Cervus elephus*), 62 (2004) 652

Repeat breeding

Changes in EGF concentrations during estrous cycle in bovine endometrium and their alterations in repeat breeder cows, 62 (2004) 103

Repeatability

Genetic parameters of multiple ovulation traits in Nellore females, 62 (2004) 1459

Reproduction

Effects of an experimental *Trypanosoma congolense* infection on the reproductive performance of West African Dwarf goats, 62 (2004) 1438

Reproductive hormones

Influence of repeated rectal ultrasound examinations on hormone profiles and behaviour around oestrus and ovulation in dairy cattle, 62 (2004) 1337

Reproductive physiology

Fecal steroid analysis for monitoring reproduction in the sun bear (*Helarctos malayanus*), 62 (2004) 1677

Reproductive toxicology

Prenatal toxicity of cyanide in goats—a model for teratological studies in ruminants, 62 (2004) 1012

Resynchronization of estrus

Comparison of two estrus synchronization and resynchronization treatments in lactating dairy cows, 62 (2004) 729

River buffalo

The effect of different doses of Gonadorelin on ovarian follicle dynamics in river buffalo (*Bubalus bubalis*), 62 (2004) 1283

Ruminants

Prenatal toxicity of cyanide in goats—a model for teratological studies in ruminants, 62 (2004) 1012

Scrotal circumference

Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves, 62 (2004) 861

Sexual development in early- and late-maturing *Bos indicus* and *Bos indicus* × *Bos taurus* crossbred bulls in Brazil, 62 (2004) 1198

SDS

Effects of the supplementation of trehalose extender containing egg yolk with sodium dodecyl sulfate on the freezability of goat spermatozoa, 62 (2004) 809

Season

Influence of season of birth on growth and reproductive development of Brahman bulls, 62 (2004) 93

Seasonal variation in testicular volume and sexual behavior of Chios and Serres rams, 62 (2004) 275

Seasonality

Fecal steroid analysis for monitoring reproduction in the sun bear (*Helarctos malayanus*), 62 (2004) 1677

Sector transducer

A comparison of a mechanical sector and a linear array transducer for ultrasound-guided transvaginal oocyte retrieval (OPU) in the cow, 62 (2004) 906

Semen

Genetic parameters of libido in Brazilian Nellore bulls, 62 (2004) 1

Collection and evaluation of semen from captive howler monkeys (*Alouatta caraya*), 62 (2004) 131

Effect of post-thaw incubation on sperm kinematics and acrosomal integrity of ram spermatozoa cryopreserved in medium-sized French straws, 62 (2004) 415

Effect of L-carnitine administration on the seminal characteristics of oligoasthenospermic stallions, 62 (2004) 761

GnRH immunocontraception of male cats, 62 (2004) 1116

Sexual development in early- and late-maturing *Bos indicus* and *Bos indicus* × *Bos taurus* crossbred bulls in Brazil, 62 (2004) 1198

Semen quality of postpubertal boars during increasing and decreasing natural photoperiods, 62 (2004) 1271

Blood cells in rainbow trout *Oncorhynchus mykiss* milt: relation to milt collection method and sampling period, 62 (2004) 1353

Semen age

A retrospective study on the preserving capacity of a commercial boar semen extender, 62 (2004) 425

Semen analysis

Automated sperm morphometry and morphology analysis of canine semen by the Hamilton-Thorne analyser, 62 (2004) 1292

Semen assay

Prognostic value of spermatological parameters as predictors of in vitro fertility of frozen-thawed bull semen, 62 (2004) 1245

Semen characteristics

Semen characteristics, cryopreservation, and successful artificial insemination in the Blue rock pigeon (*Columba livia*), 62 (2004) 139

Semen storage

Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation, 62 (2004) 874

Seminal plasma

Effect of L-carnitine administration on the seminal characteristics of oligoasthenospermic stallions, 62 (2004) 761

Blood cells in rainbow trout *Oncorhynchus mykiss* milt: relation to milt collection method and sampling period, 62 (2004) 1353

Seminal plasma proteins

Seminal plasma proteins prolong the viability of rainbow trout (*Oncorynchus mykiss*) spermatozoa, 62 (2004) 801

Serology

Neospora caninum infection does not affect early pregnancy in dairy cattle, 62 (2004) 606

Sex pre-selection

Liquid storage of flow cytometrically sorted ram spermatozoa, 62 (2004) 587

Assessment of in vitro sperm characteristics after flow cytometric sorting of frozen-thawed bull spermatozoa, 62 (2004) 958

Sex ratio

Effect of the interval between estrus onset and artificial insemination on sex ratio and fertility in cattle: a field study, 62 (2004) 1264

Sex steroids

Comparative study of the reproductive characteristics of XY male and hormonally sex-reversed XX male Eurasian perch, *Perca fluviatilis*, 62 (2004) 790

Sexing

Effects of heparin and sperm concentration on cleavage and blastocyst development rates of bovine oocytes inseminated with flow cytometrically-sorted sperm, 62 (2004) 819

Rapid sexing of bovine preimplantation embryos using loop-mediated isothermal amplification, 62 (2004) 887

Cloning of Taiwan water buffalo male-specific DNA sequence for sexing, 62 (2004) 1536

Sex-reversed male

Comparative study of the reproductive characteristics of XY male and hormonally sex-reversed XX male Eurasian perch, *Perca fluviatilis*, 62 (2004) 790

Sexual behavior

Seasonal variation in testicular volume and sexual behavior of Chios and Serres rams, 62 (2004) 275

Effect of undegradable protein supply on testicular size, spermiogram parameters and sexual behavior of mature Assaf rams, 62 (2004) 299

Shark liver oil

Oral intake of shark liver oil modifies lipid composition and improves motility and velocity of boar sperm, 62 (2004) 1557

Sheep

Morphological and ultrastructural analysis of sheep primordial follicles preserved in 0.9% saline solution and TCM 199, 62 (2004) 65

Prostaglandin $F_{2\alpha}$-induced estrus in ewes exhibiting estrous cycles of different duration, 62 (2004) 123

Rate of abnormalities in lambs from in vitro produced embryos transferred on Day 2 compared with Day 6 postfertilization, 62 (2004) 195

Cell-specific expression of estrogen-responsive genes in the uteri of cyclic, early pregnant and ovariectomized ewes, 62 (2004) 403

Effect of post-thaw incubation on sperm kinematics and acrosomal integrity of ram spermatozoa cryopreserved in medium-sized French straws, 62 (2004) 415

Transcervical artificial insemination in sheep: effects of a new transcervical artificial insemination instrument and traversing the cervix on pregnancy and lambing rates, 62 (2004) 990

Lambing rates and litter sizes following intrauterine or cervical insemination of frozen/thawed semen with or without oxytocin administration, 62 (2004) 1236

Sheep embryos

Comparison of different vitrification protocols on viability after transfer of ovine blastocysts in vitro produced and in vivo derived, 62 (2004) 481

Sheep-reproduction

Experimentally induced orchitis associated with *Arcanobacterium pyogenes*: clinical, ultrasonographic, seminological and pathological features, 62 (2004) 1307

Slow freezing

Comparison on in vitro fertilized bovine embryos cultured in KSOM or SOF and cryopreserved by slow freezing or vitrification, 62 (2004) 437

Smooth muscle effects

A sheer pharmacologic approach to compare the contractile effects of $PGF_{2\alpha}$, DL-cloprostenol and D-cloprostenol on isolated uterine, tracheal, ileal and arterial smooth muscle preparations, 62 (2004) 837

SOF

Comparison on in vitro fertilized bovine embryos cultured in KSOM or SOF and cryopreserved by slow freezing or vitrification, 62 (2004) 437

Sow

A retrospective study on the preserving capacity of a commercial boar semen extender, 62 (2004) 425

Increasing feed intake in late gestation does not affect plasma progesterone concentration in the sow, 62 (2004) 1618

Spaying

Changes in plasma gonadotropin concentrations and urethral closure pressure in the bitch during the 12 months following ovariectomy, 62 (2004) 1391

Sperm

Initial studies on sperm cryopreservation of a live-bearing fish, the green swordtail *Xiphophorus helleri*, 62 (2004) 179

Effects of levamisole on hyaluronidase activity and sperm characteristics in rams, 62 (2004) 323

Effects of the supplementation of trehalose extender containing egg yolk with sodium dodecyl sulfate on the freezability of goat spermatozoa, 62 (2004) 809

Effects of heparin and sperm concentration on cleavage and blastocyst development rates of bovine oocytes inseminated with flow cytometrically-sorted sperm, 62 (2004) 819

Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation, 62 (2004) 874

Sperm cryopreservation of a live-bearing fish, the platyfish *Xiphophorus couchianus*, 62 (2004) 971

Sperm cells

High resolution DNA flow cytometry of boar sperm cells in identification of boars carrying cytogenetic aberrations, 62 (2004) 501

Sperm morphology

Hair whorl patterns on the bovine forehead may be related to breeding soundness measures, 62 (2004) 450

Sperm motility

Comparative study of the reproductive characteristics of XY male and hormonally sex-reversed XX male Eurasian perch, *Perca fluviatilis*, 62 (2004) 790

Seminal plasma proteins prolong the viability of rainbow trout (*Oncorynchus mykiss*) spermatozoa, 62 (2004) 801

Sperm motion

Effect of plasmin on movement characteristics of ejaculated bull spermatozoa, 62 (2004) 553

Sperm quality

Comparative study of the reproductive characteristics of XY male and hormonally sex-reversed XX male Eurasian perch, *Perca fluviatilis*, 62 (2004) 790

Semen quality of postpubertal boars during increasing and decreasing natural photoperiods, 62 (2004) 1271

Effects of in vitro storage time and semen-extender on membrane quality of boar sperm assessed by flow cytometry, 62 (2004) 1638

Sperm sorting

Liquid storage of flow cytometrically sorted ram spermatozoa, 62 (2004) 587

Assessment of in vitro sperm characteristics after flow cytometric sorting of frozen-thawed bull spermatozoa, 62 (2004) 958

Spermatogenesis

Germ cell apoptosis in the testes of normal stallions, 62 (2004) 283

Spermatogenic arrest

Efficacy, safety and reversibility of bisdiamine as a male contraceptive in cats, 62 (2004) 81

Spermatogenic dysfunction

Improvement in spermatogenic function after subcutaneous implantation of a capsule containing an aromatase inhibitor in four oligozoospermic dogs and one azoospermic dog with high plasma estradiol-17β concentrations, 62 (2004) 165

Spermatozoa

Preliminary study on the cryopreservation of tropical bagrid catfish (*Mystus nemurus*) spermatozoa; the effect of extender and cryoprotectant on the motility after short-term storage, 62 (2004) 25

Collection and evaluation of semen from captive howler monkeys (*Alouatta caraya*), 62 (2004) 131

Comparison between the toluidine blue stain and the Feulgen reaction for evaluation of rabbit sperm chromatin condensation and their relationship with sperm morphology, 62 (2004) 398

Evaluation of post-thaw Asian elephant (*Elephas maximus*) spermatozoa using flow cytometry: the effects of extender and cryoprotectant, 62 (2004) 748

Seminal plasma proteins prolong the viability of rainbow trout (*Oncorynchus mykiss*) spermatozoa, 62 (2004) 801

Quality control in boar semen production by use of the FACSCount AF system, 62 (2004) 1218

Blood cells in rainbow trout *Oncorhynchus mykiss* milt: relation to milt collection method and sampling period, 62 (2004) 1353

Effect of time of ovulation on fertilization after intrabursal transfer of spermatozoa (ITS): improvement of a new method for artificial insemination in mice, 62 (2004) 1417

Oral intake of shark liver oil modifies lipid composition and improves motility and velocity of boar sperm, 62 (2004) 1557

Stage

Germ cell apoptosis in the testes of normal stallions, 62 (2004) 283

Stallion

Germ cell apoptosis in the testes of normal stallions, 62 (2004) 283

Effect of L-carnitine administration on the seminal characteristics of oligoasthenospermic stallions, 62 (2004) 761

A Bayesian approach to prediction of stallion daily sperm output, 62 (2004) 1607

Stallion sperm
Evaluation of alternative cryoprotectants for preserving stallion spermatozoa, 62 (2004) 1056

Steroid hormone
Cell-specific expression of estrogen-responsive genes in the uteri of cyclic, early pregnant and ovariectomized ewes, 62 (2004) 403
Isolation and characterization of goat ovarian aromatase cDNA: assessment of the activity using an intact cell system and placental expression, 62 (2004) 532

Subclinical endometritis
Endometrial cytology and ultrasonography for the detection of subclinical endometritis in postpartum dairy cows, 62 (2004) 9

Sugar concentrations
Influence of glucose and fructose in the extender during long-term storage of chilled canine semen, 62 (2004) 1498

Superovulation
A simple ultrasound test to predict the superstimulatory response in cattle, 62 (2004) 227
Effect of fluorogestone acetate on embryo recovery and quality in eCG-superovulated goats with premature luteal regression, 62 (2004) 624

Superstimulation
A simple ultrasound test to predict the superstimulatory response in cattle, 62 (2004) 227

Sus domesticus
In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*, 62 (2004) 929

Swim-up
Does cleansing of frozen-thawed bull semen before assessment provide samples that relate better to potential fertility?, 62 (2004) 702

Swine
Pre-weaning performance and health of pigs born to cloned (fetal cell derived) swine versus non-cloned swine, 62 (2004) 113

Synchronization
Estradiol benzoate given 0 or 24 h after the end of a progestagen treatment in postpartum suckled beef cows, 62 (2004) 265

Teratology
Prenatal toxicity of cyanide in goats—a model for teratological studies in ruminants, 62 (2004) 1012

Testes
Improvement in spermatogenic function after subcutaneous implantation of a capsule containing an aromatase inhibitor in four oligozoospermic dogs and one azoospermic dog with high plasma estradiol-17β concentrations, 62 (2004) 165
Seasonal variation in testicular volume and sexual behavior of Chios and Serres rams, 62 (2004) 275
Germ cell apoptosis in the testes of normal stallions, 62 (2004) 283
Effects of treatment with LH or FSH from 4 to 8 weeks of age on the attainment of puberty in bull calves, 62 (2004) 861

Testicle
GnRH immunocontraception of male cats, 62 (2004) 1116

Testicular measures
Genetic parameters of libido in Brazilian Nellore bulls, 62 (2004) 1

Testis size
Effect of undegradable protein supply on testicular size, spermiogram parameters and sexual behavior of mature Assaf rams, 62 (2004) 299

Testosterone
Efficacy, safety and reversibility of bisdiamine as a male contraceptive in cats, 62 (2004) 81
Effect of undegradable protein supply on testicular size, spermiogram parameters and sexual behavior of mature Assaf rams, 62 (2004) 299
GnRH immunocontraception of male cats, 62 (2004) 1116

Toluidine blue
Comparison between the toluidine blue stain and the Feulgen reaction for evaluation of rabbit sperm chromatin condensation and their relationship with sperm morphology, 62 (2004) 398

Transgenic
Effect of protein supplementation in potassium simplex optimization medium on preimplantation development of bovine non-transgenic and transgenic cloned embryos, 62 (2004) 1403

Translocations
High resolution DNA flow cytometry of boar sperm cells in identification of boars carrying cytogenetic aberrations, 62 (2004) 501

Trehalose
Effects of the supplementation of trehalose extender containing egg yolk with sodium dodecyl sulfate on the freezability of goat spermatozoa, 62 (2004) 809

Tritrichomonas foetus
Immunization in heifers with dual vaccines containing *Tritrichomonas foetus* and *Campylobacter fetus* antigens using systemic and mucosal routes, 62 (2004) 1367

Tropical bagrid catfish
Preliminary study on the cryopreservation of tropical bagrid catfish (*Mystus nemurus*) spermatozoa; the effect of extender and cryoprotectant on the motility after short-term storage, 62 (2004) 25

Trypanosoma congolense
Effects of an experimental *Trypanosoma congolense* infection on the reproductive performance of West African Dwarf goats, 62 (2004) 1438

Trypsin treatment
Infectivity of bovine viral diarrhea virus associated with in vivo-derived bovine embryos, 62 (2004) 387

TUNEL
Germ cell apoptosis in the testes of normal stallions, 62 (2004) 283

Tyrosine phosphorylation
Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation, 62 (2004) 874

Ubiquitin–proteasome
Regulatory roles of ubiquitin–proteasome pathway in pig oocyte meiotic maturation and fertilization, 62 (2004) 245

Ultrasonography
Endometrial cytology and ultrasonography for the detection of subclinical endometritis in postpartum dairy cows, 62 (2004) 9
A simple ultrasound test to predict the superstimulatory response in cattle, 62 (2004) 227
Experimentally induced orchitis associated with *Arcanobacterium pyogenes*: clinical, ultrasonographic, seminological and pathological features, 62 (2004) 1307
Comparison of four synchronization protocols for fixed-time bovine embryo transfer in *Bos indicus* × *Bos taurus* recipients, 62 (2004) 1577

Ultrasound
A comparison of diagnosis of pregnancy in the goat via transrectal ultrasound scanning, progesterone, and pregnancy-associated glycoprotein assays, 62 (2004) 1108
Influence of repeated rectal ultrasound examinations on hormone profiles and behaviour around oestrus and ovulation in dairy cattle, 62 (2004) 1337
Correlation between fetal age and ultrasonographic measurements during the second half of pregnancy in domestic cats (*Felis catus*), 62 (2004) 1430

Ultrastructural
Morphological and ultrastructural analysis of sheep primordial follicles preserved in 0.9% saline solution and TCM 199, 62 (2004) 65

Ultrastructure
In vitro culture of epithelial cells from the caput, corpus, and cauda epididymis of *Sus domesticus*, 62 (2004) 929

Urethral closure pressure
Changes in plasma gonadotropin concentrations and urethral closure pressure in the bitch during the 12 months following ovariectomy, 62 (2004) 1391

Ursidae
Fecal steroid analysis for monitoring reproduction in the sun bear (*Helarctos malayanus*), 62 (2004) 1677

Uterine involution
Ultrasonographic evaluation of uterine involution and postpartum follicular dynamics in French Jennies (*Equus asinus*), 62 (2004) 257

Vaccines
Immunization in heifers with dual vaccines containing *Tritrichomonas foetus* and *Campylobacter fetus* antigens using systemic and mucosal routes, 62 (2004) 1367

Vascular endothelial growth factor
Ovarian follicle vascularization in fasted pig, 62 (2004) 943

Viability
Boar sperm storage capacity of BTS and Androhep Plus: viability, motility, capacitation, and tyrosine phosphorylation, 62 (2004) 874

Vitrification
Comparison on in vitro fertilized bovine embryos cultured in KSOM or SOF and cryopreserved by slow freezing or vitrification, 62 (2004) 437

Vitrification protocols
Comparison of different vitrification protocols on viability after transfer of ovine blastocysts in vitro produced and in vivo derived, 62 (2004) 481

WAD goat
Effects of an experimental *Trypanosoma congolense* infection on the reproductive performance of West African Dwarf goats, 62 (2004) 1438

Washing
Different strains of noncytopathic bovine viral diarrhea virus (BVDV) vary in their affinity for in vivo-derived bovine embryos, 62 (2004) 45

Wave emergence.
A simple ultrasound test to predict the superstimulatory response in cattle, 62 (2004) 227

WOW
Production of a healthy calf by somatic cell nuclear transfer without micromanipulators and carbon dioxide incubators using the Handmade Cloning (HMC) and the Submarine Incubation System (SIS), 62 (2004) 1465

Xiphophorus couchianus
Sperm cryopreservation of a live-bearing fish, the platyfish *Xiphophorus couchianus*, 62 (2004) 971

Xiphophorus helleri
Initial studies on sperm cryopreservation of a live-bearing fish, the green swordtail *Xiphophorus helleri*, 62 (2004) 179

Zebu cattle
Genetic parameters of multiple ovulation traits in Nellore females, 62 (2004) 1459

Zona-free
Production of a healthy calf by somatic cell nuclear transfer without micromanipulators and carbon dioxide incubators using the Handmade Cloning (HMC) and the Submarine Incubation System (SIS), 62 (2004) 1465
